

Transport of liquid nitrogen in the elevator

Step 1

Transport of liquid nitrogen in the elevator

Safety barrier = mesh + bollards (*homemade*)

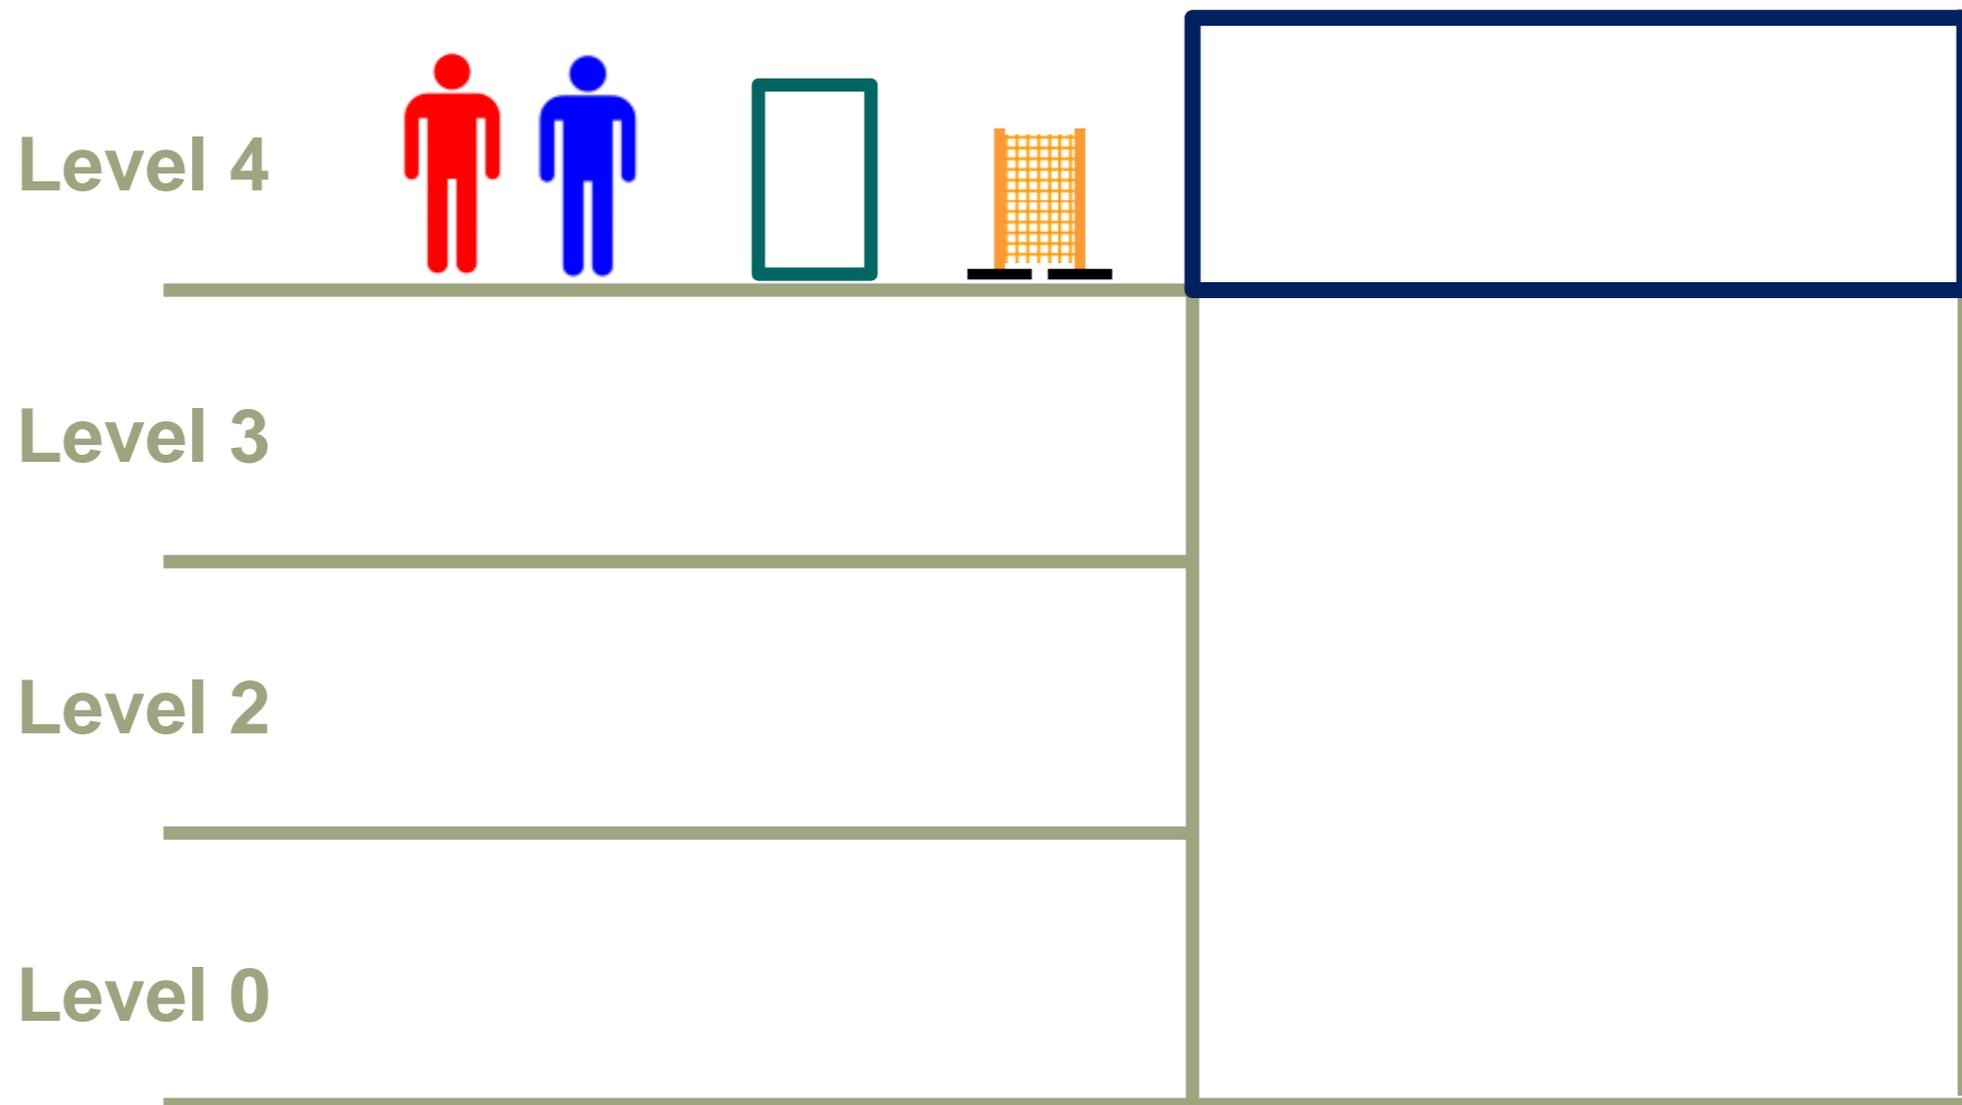

Transport of liquid nitrogen in the elevator

Safety barrier = mesh + bollards (*homemade*)

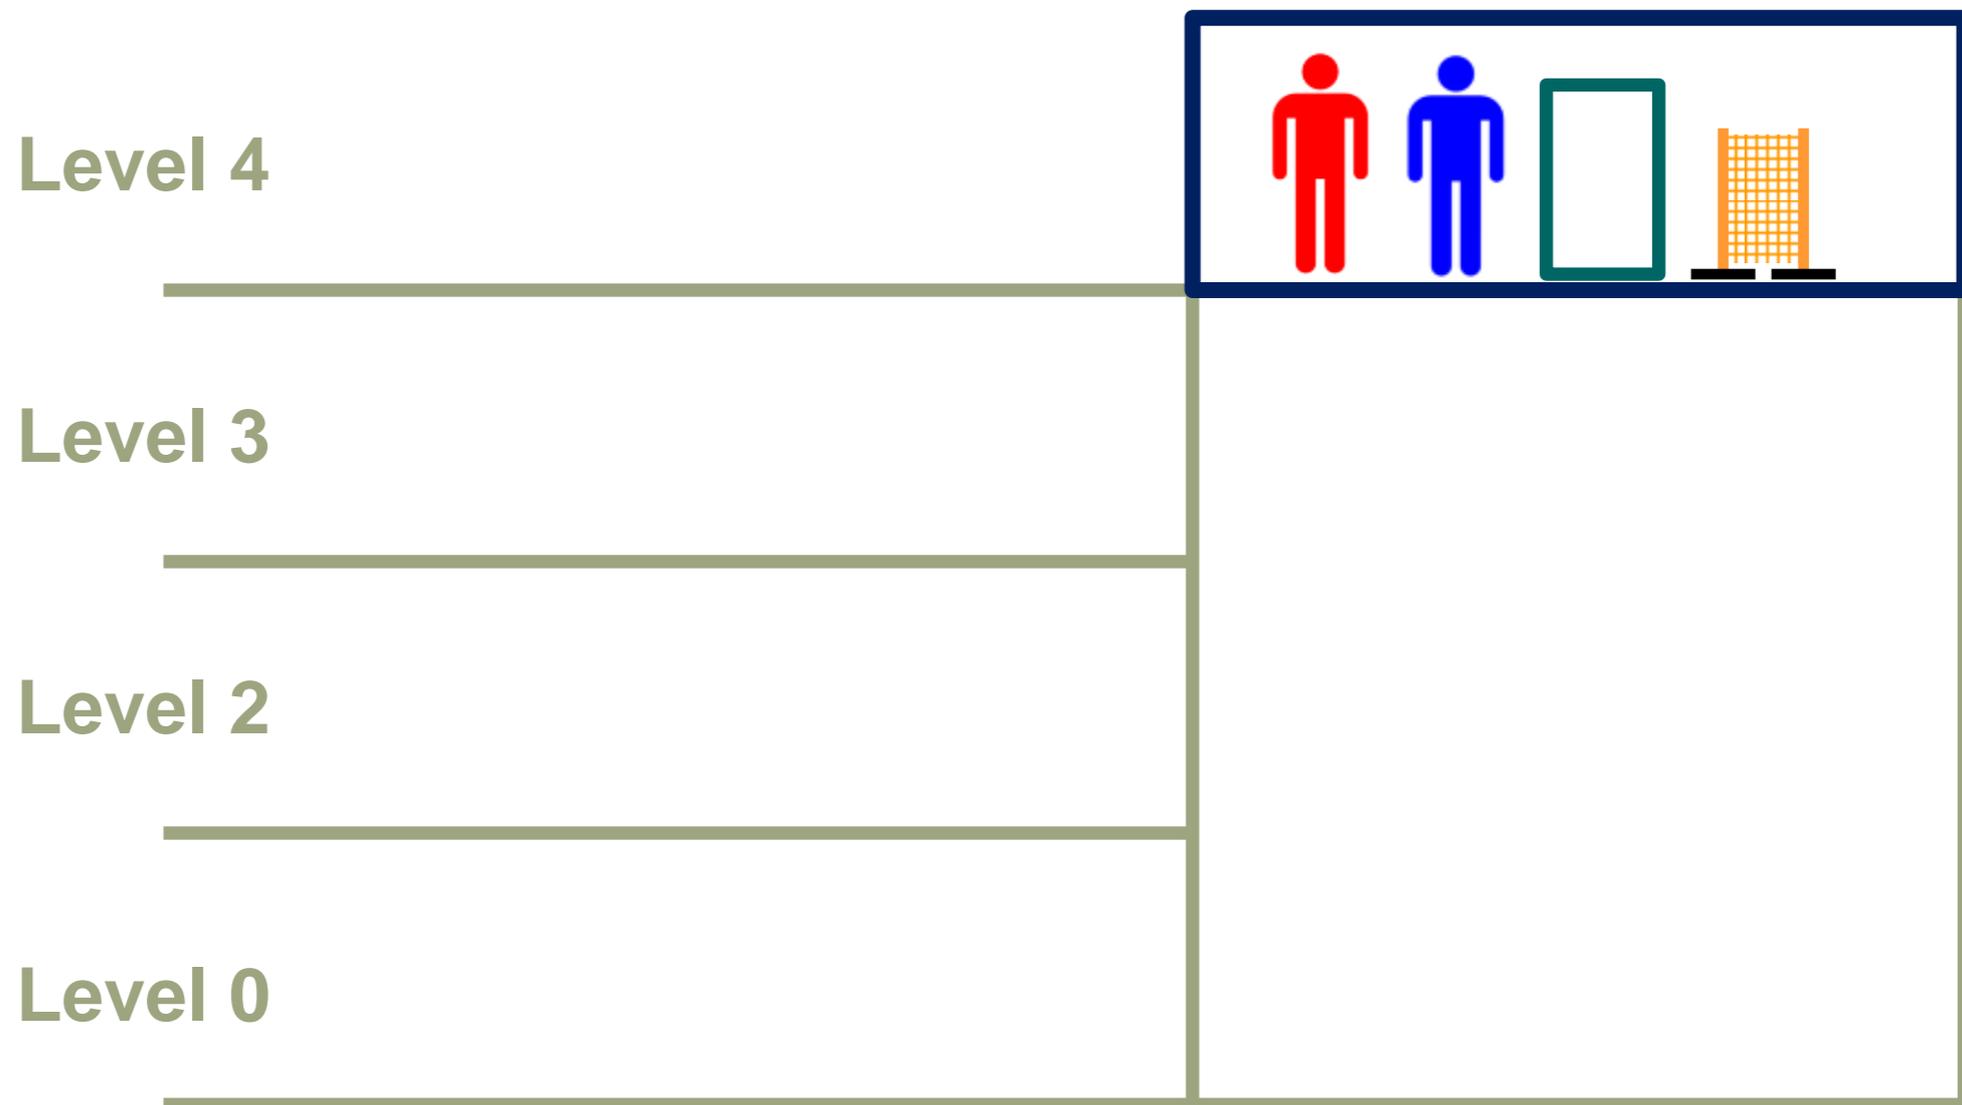

Transport of liquid nitrogen in the elevator

Step 2 : Transport the empty Dewar in level 0

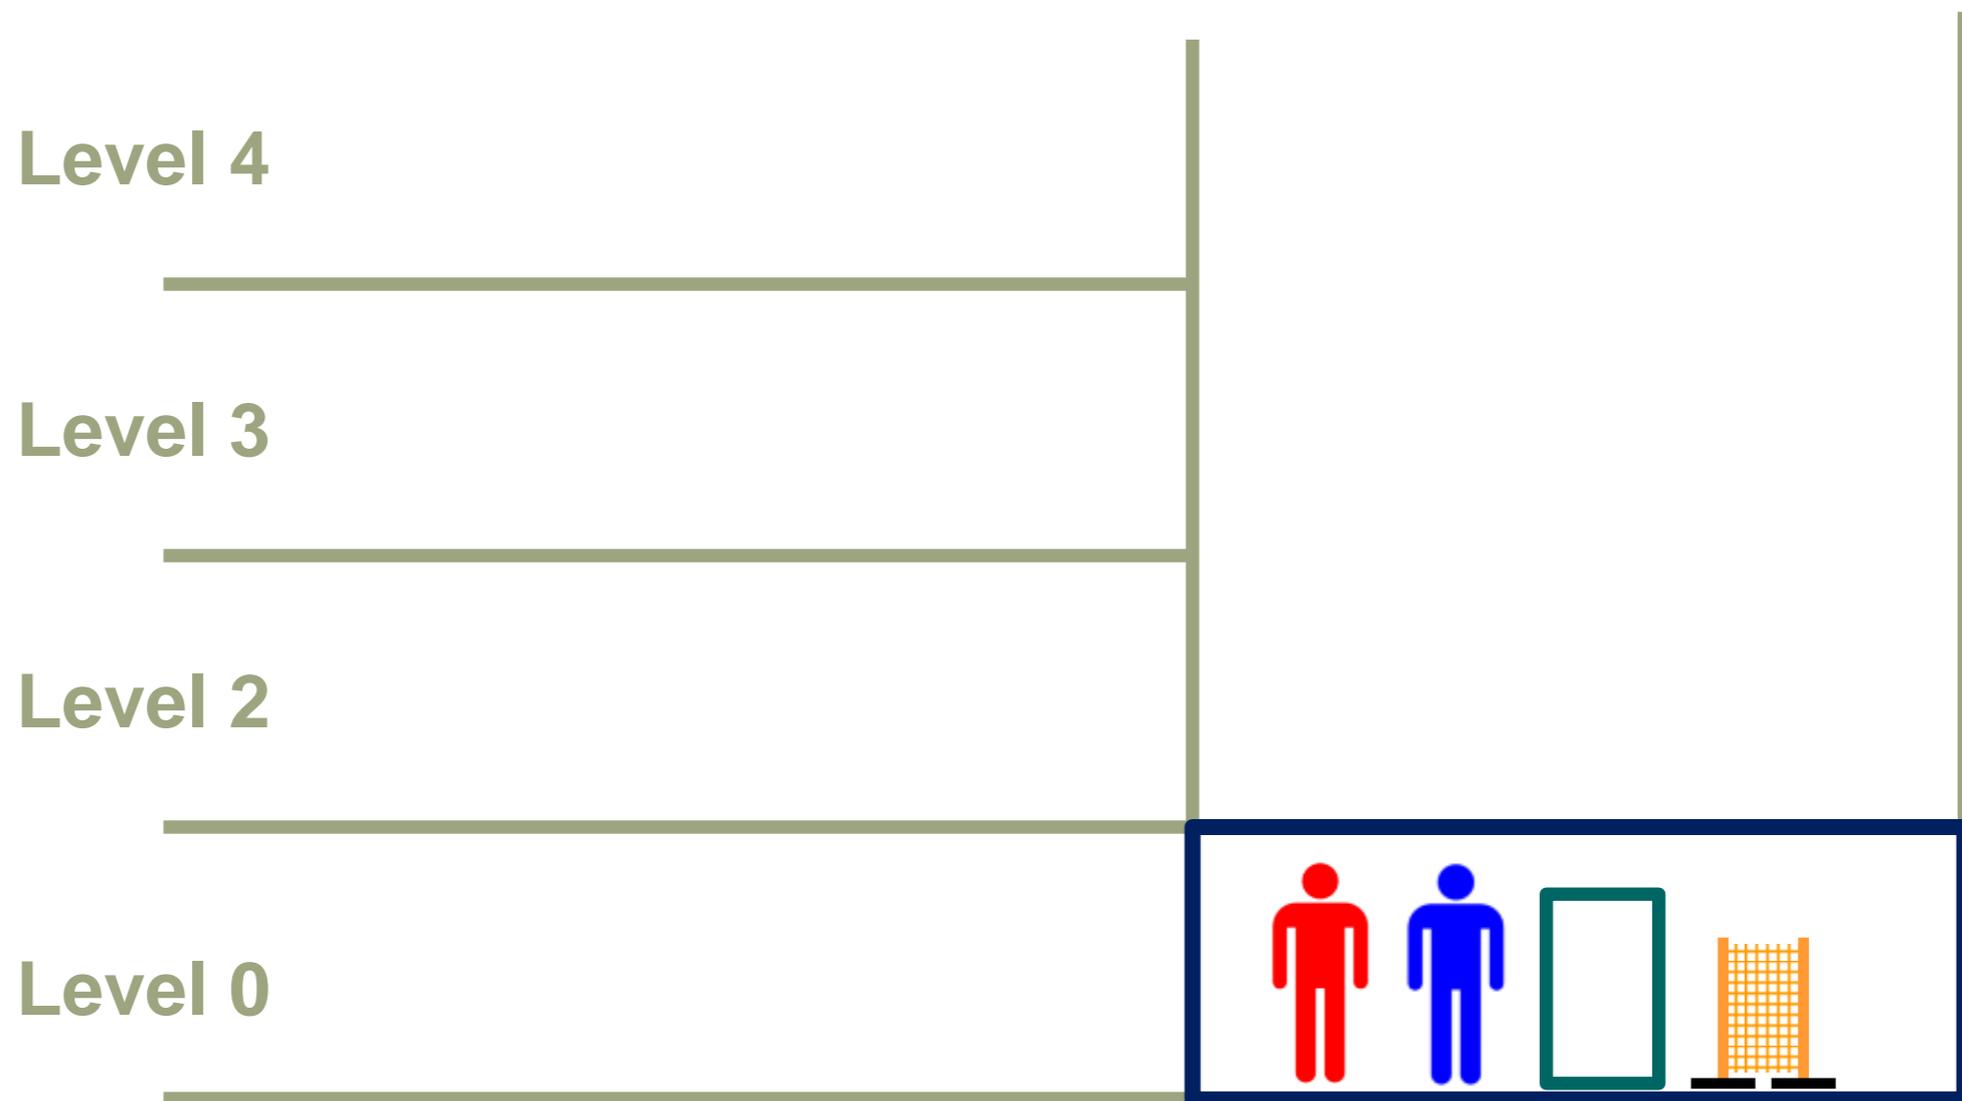

Transport of liquid nitrogen in the elevator

Step 2 : Transport the empty Dewar in level 0

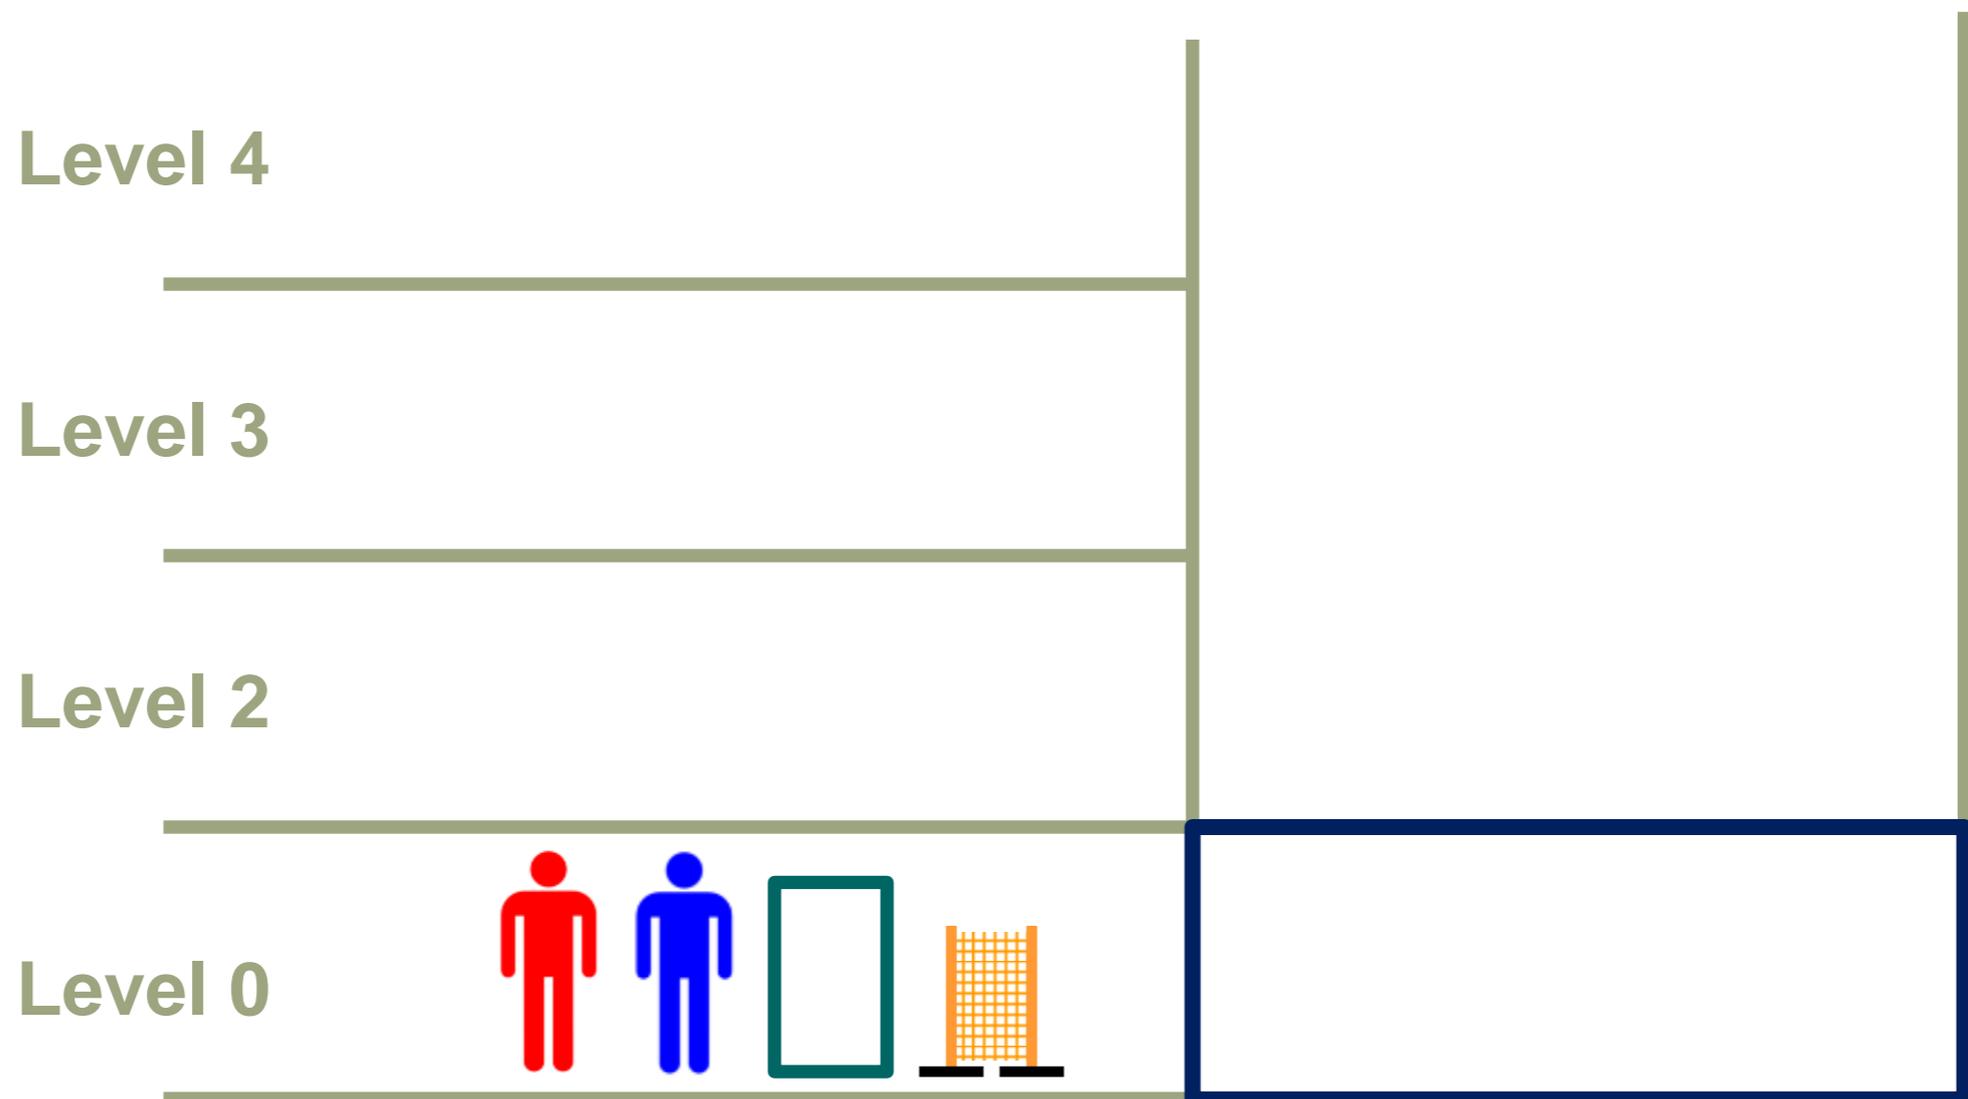

Transport of liquid nitrogen in the elevator

Step 2 : Transport the empty Dewar in level 0

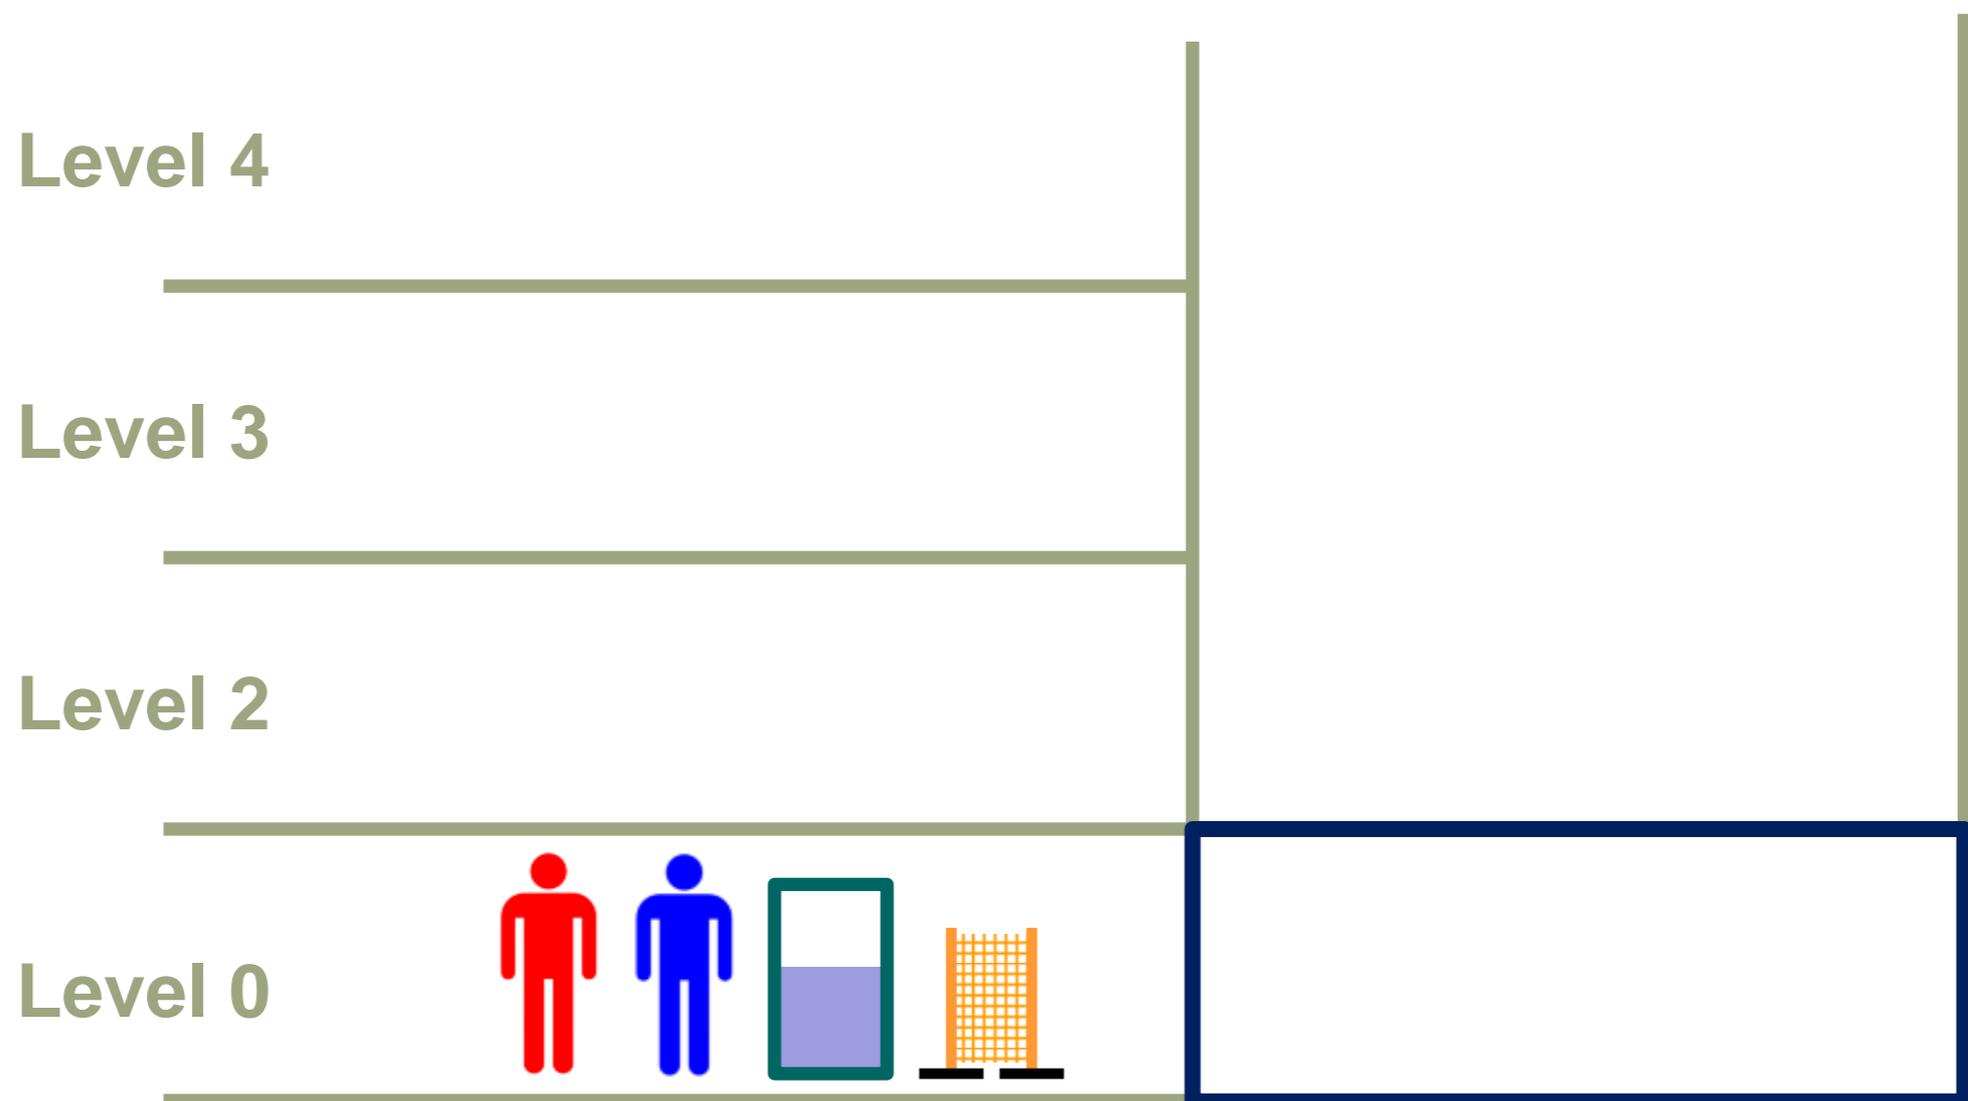

Transport of liquid nitrogen in the elevator

Step 3 : Refilling of the Dewar with liquid nitrogen

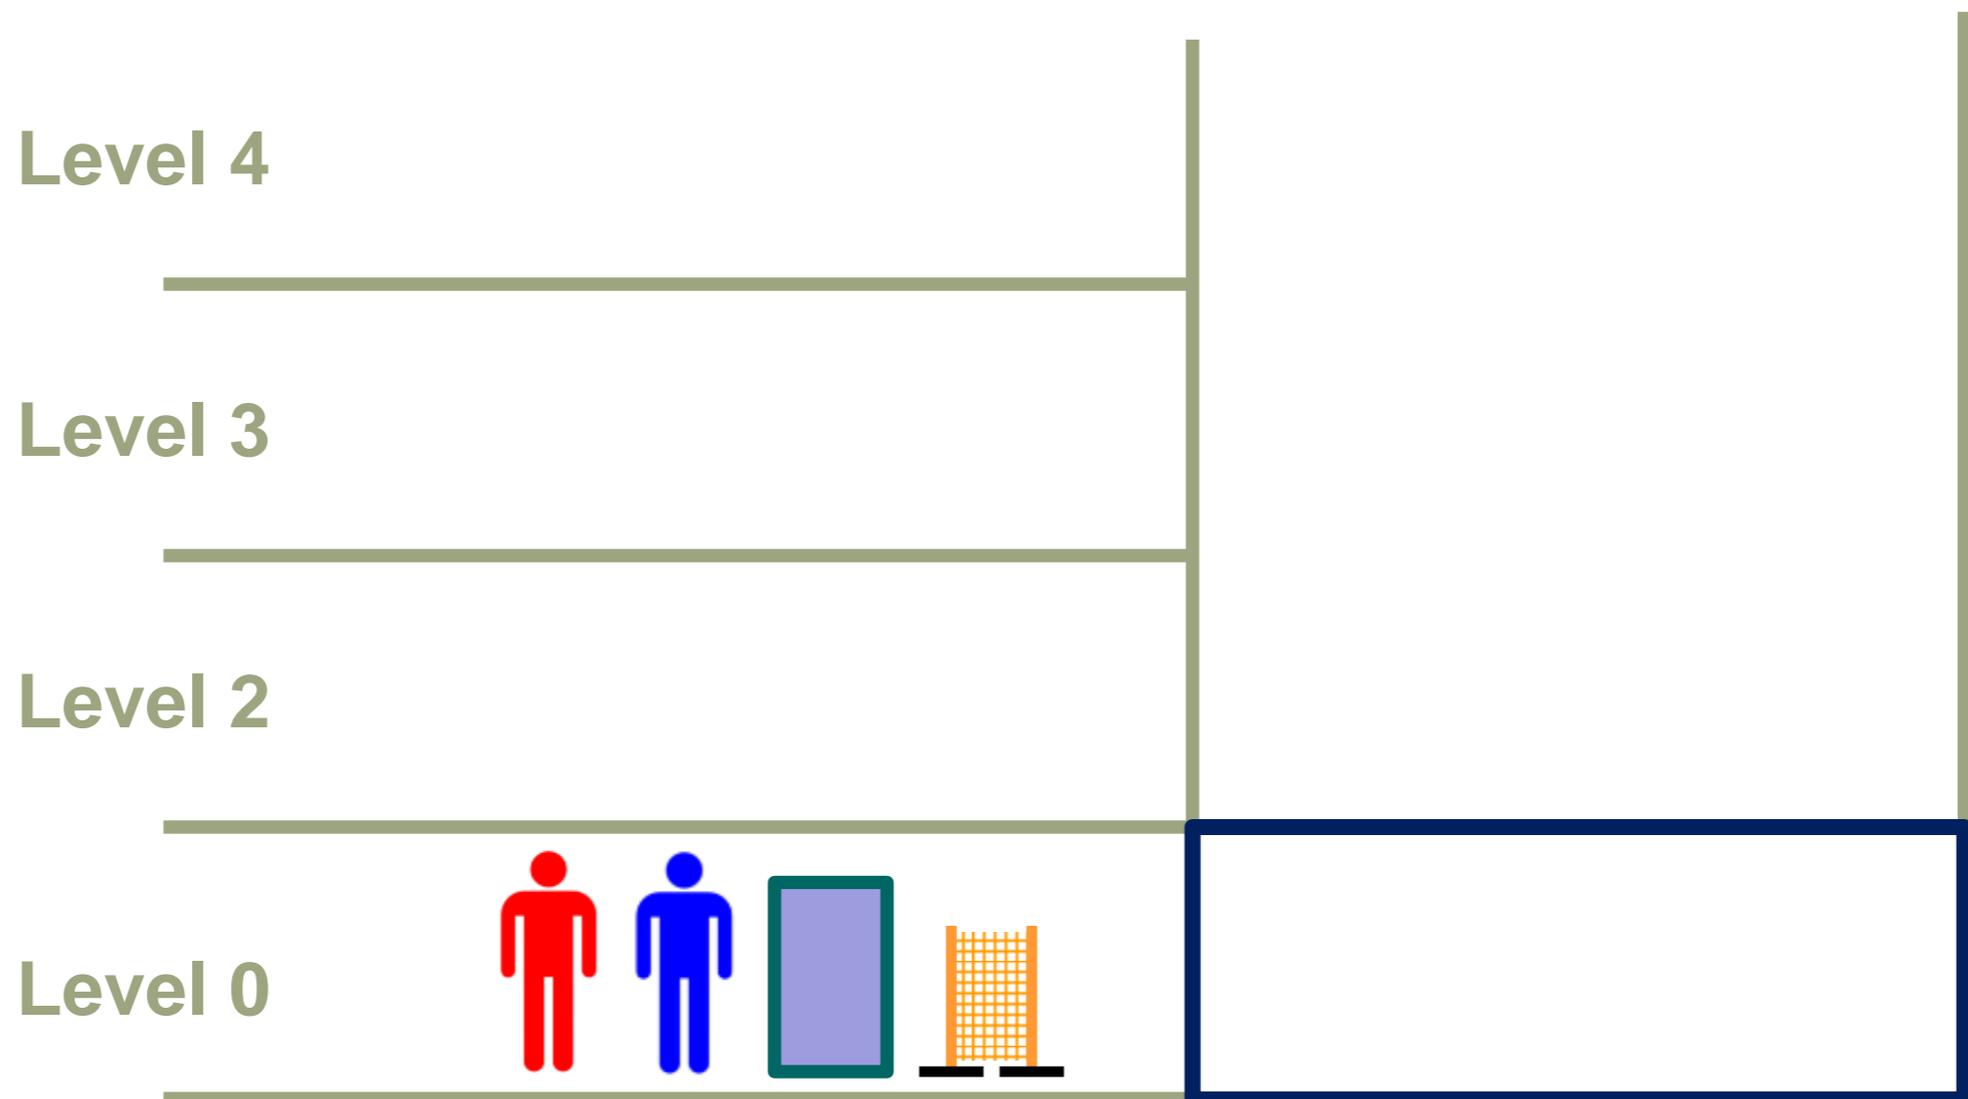

Transport of liquid nitrogen in the elevator

Step 3 : Refilling of the Dewar with liquid nitrogen

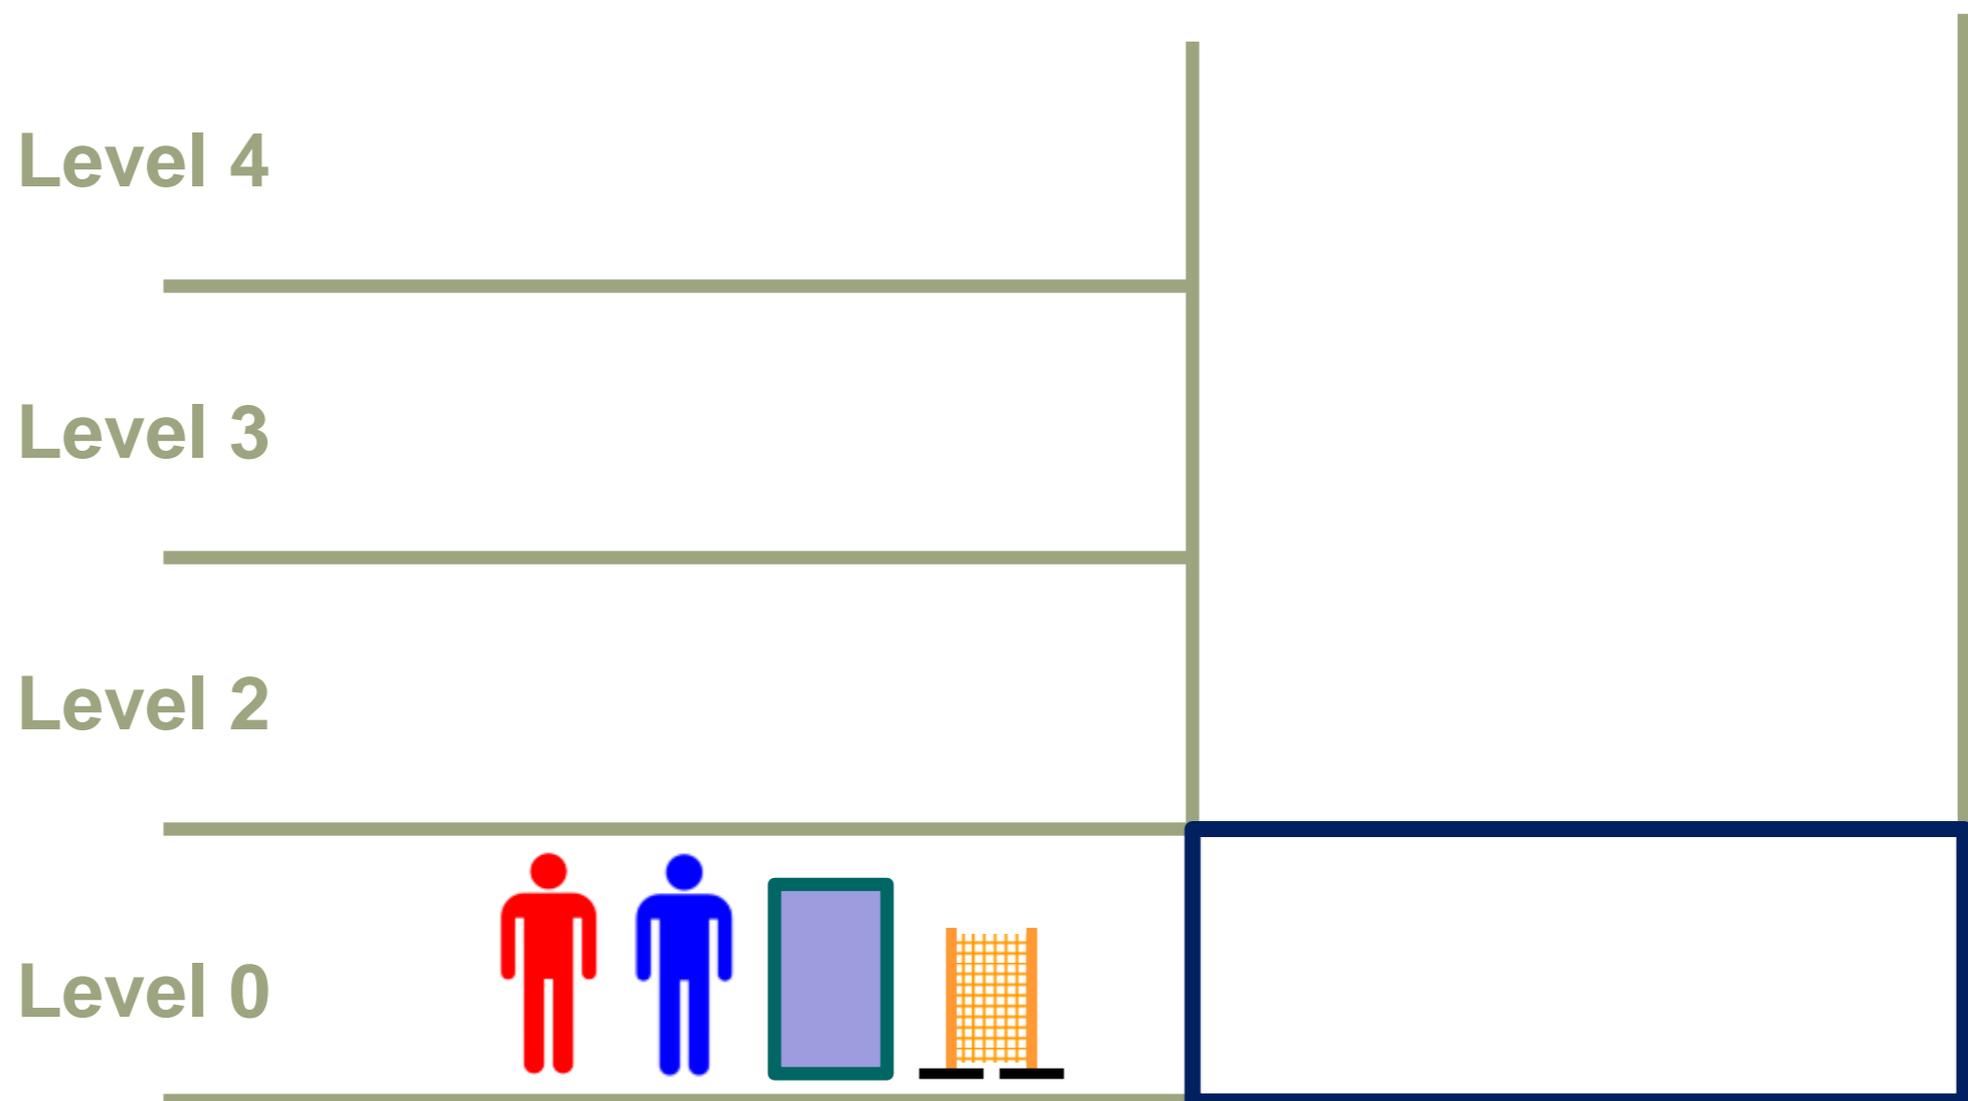

Transport of liquid nitrogen in the elevator

Step 3 : Refilling of the Dewar with liquid nitrogen

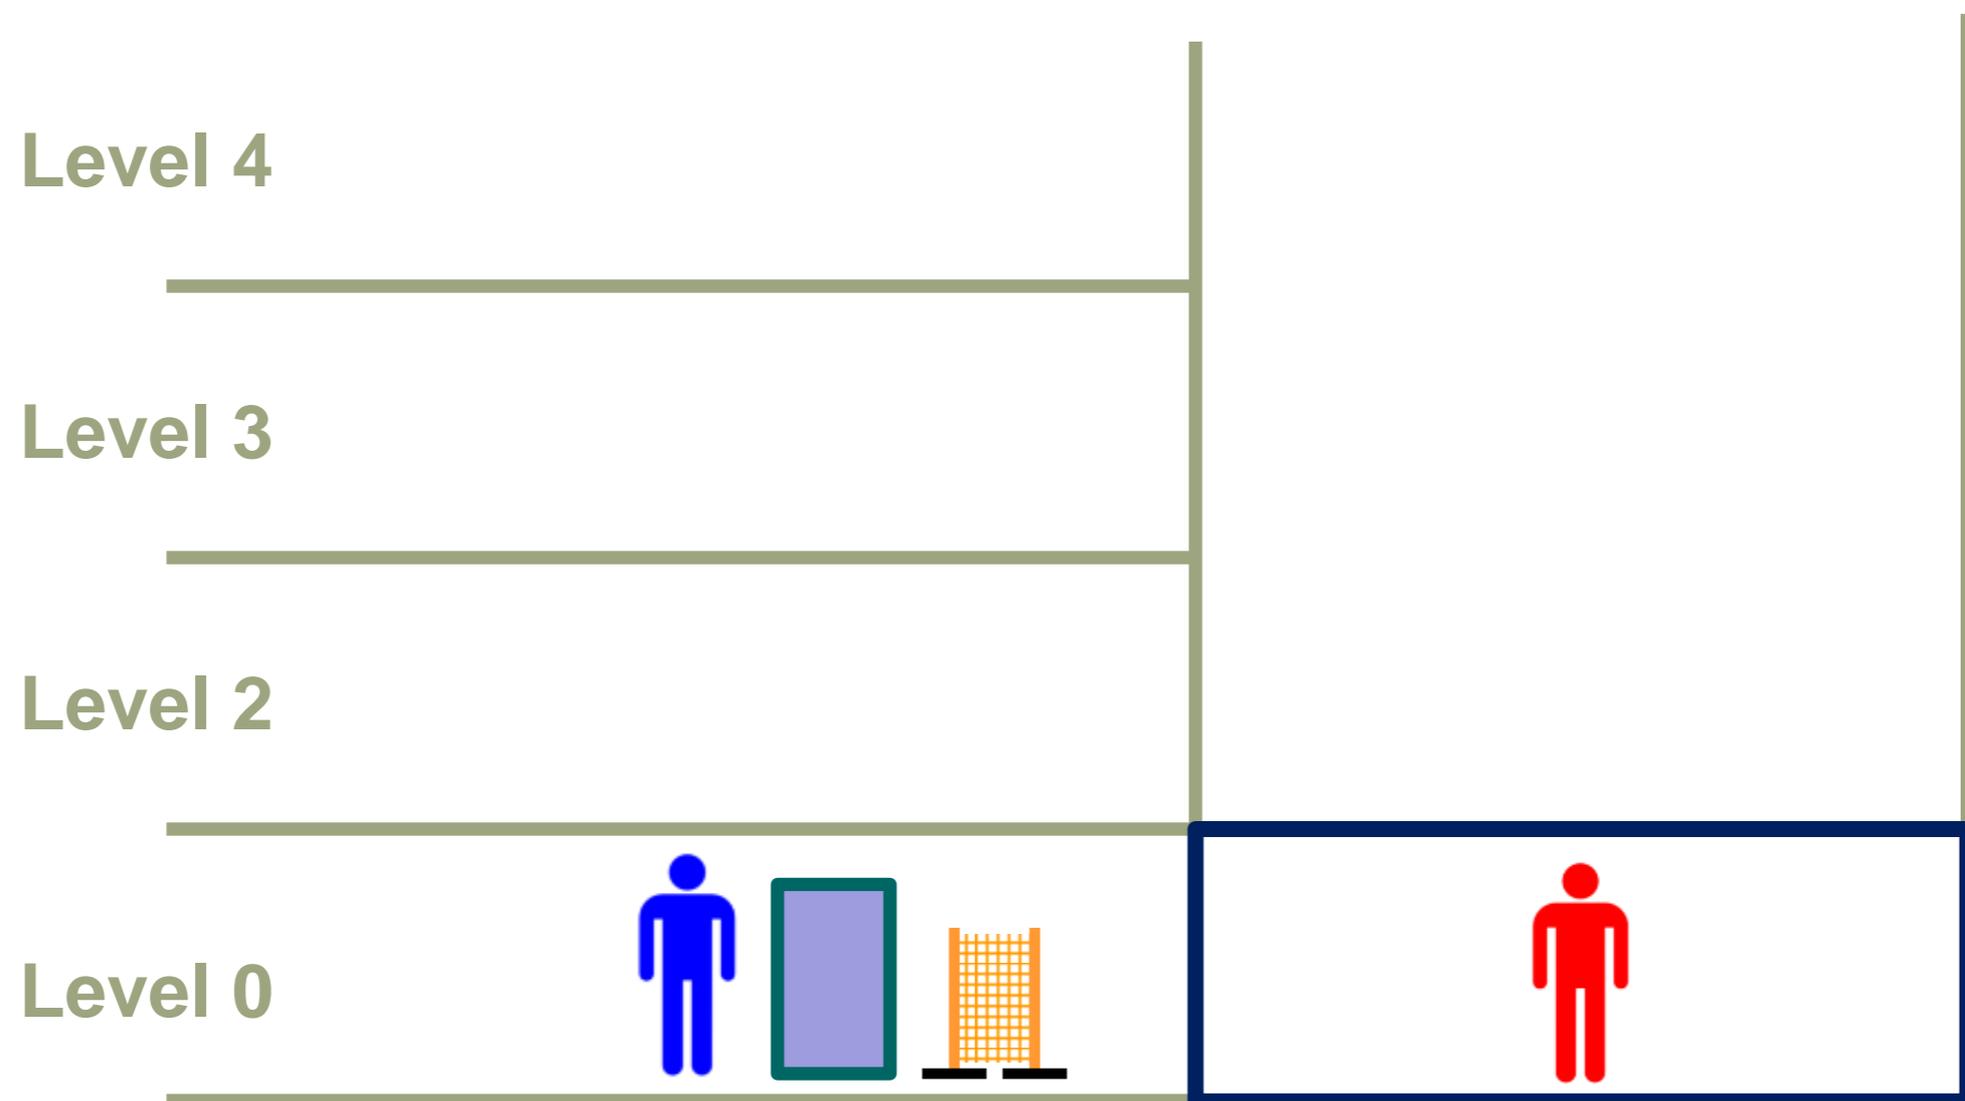

Transport of liquid nitrogen in the elevator

Step 4: One person goes to the level 4

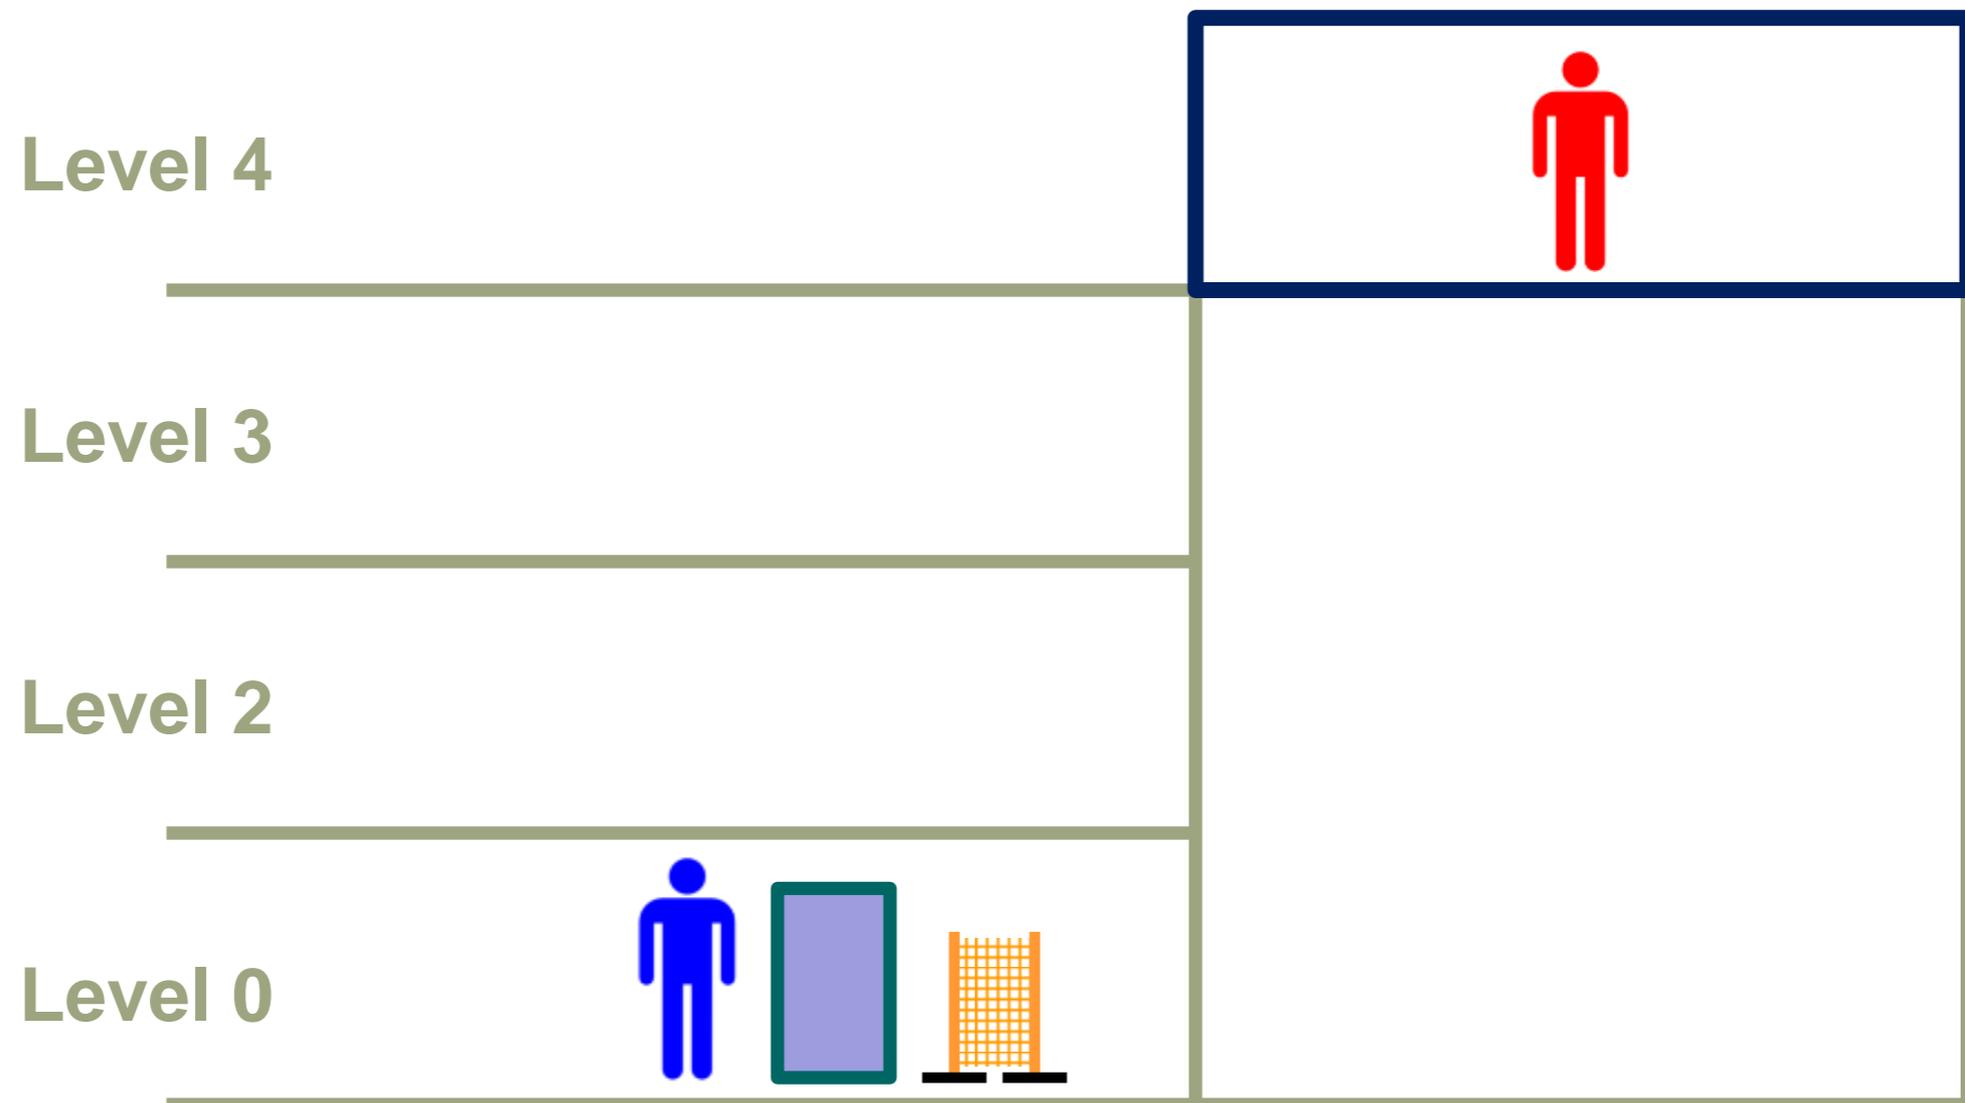

Transport of liquid nitrogen in the elevator

Step 4: One person goes to the level 4

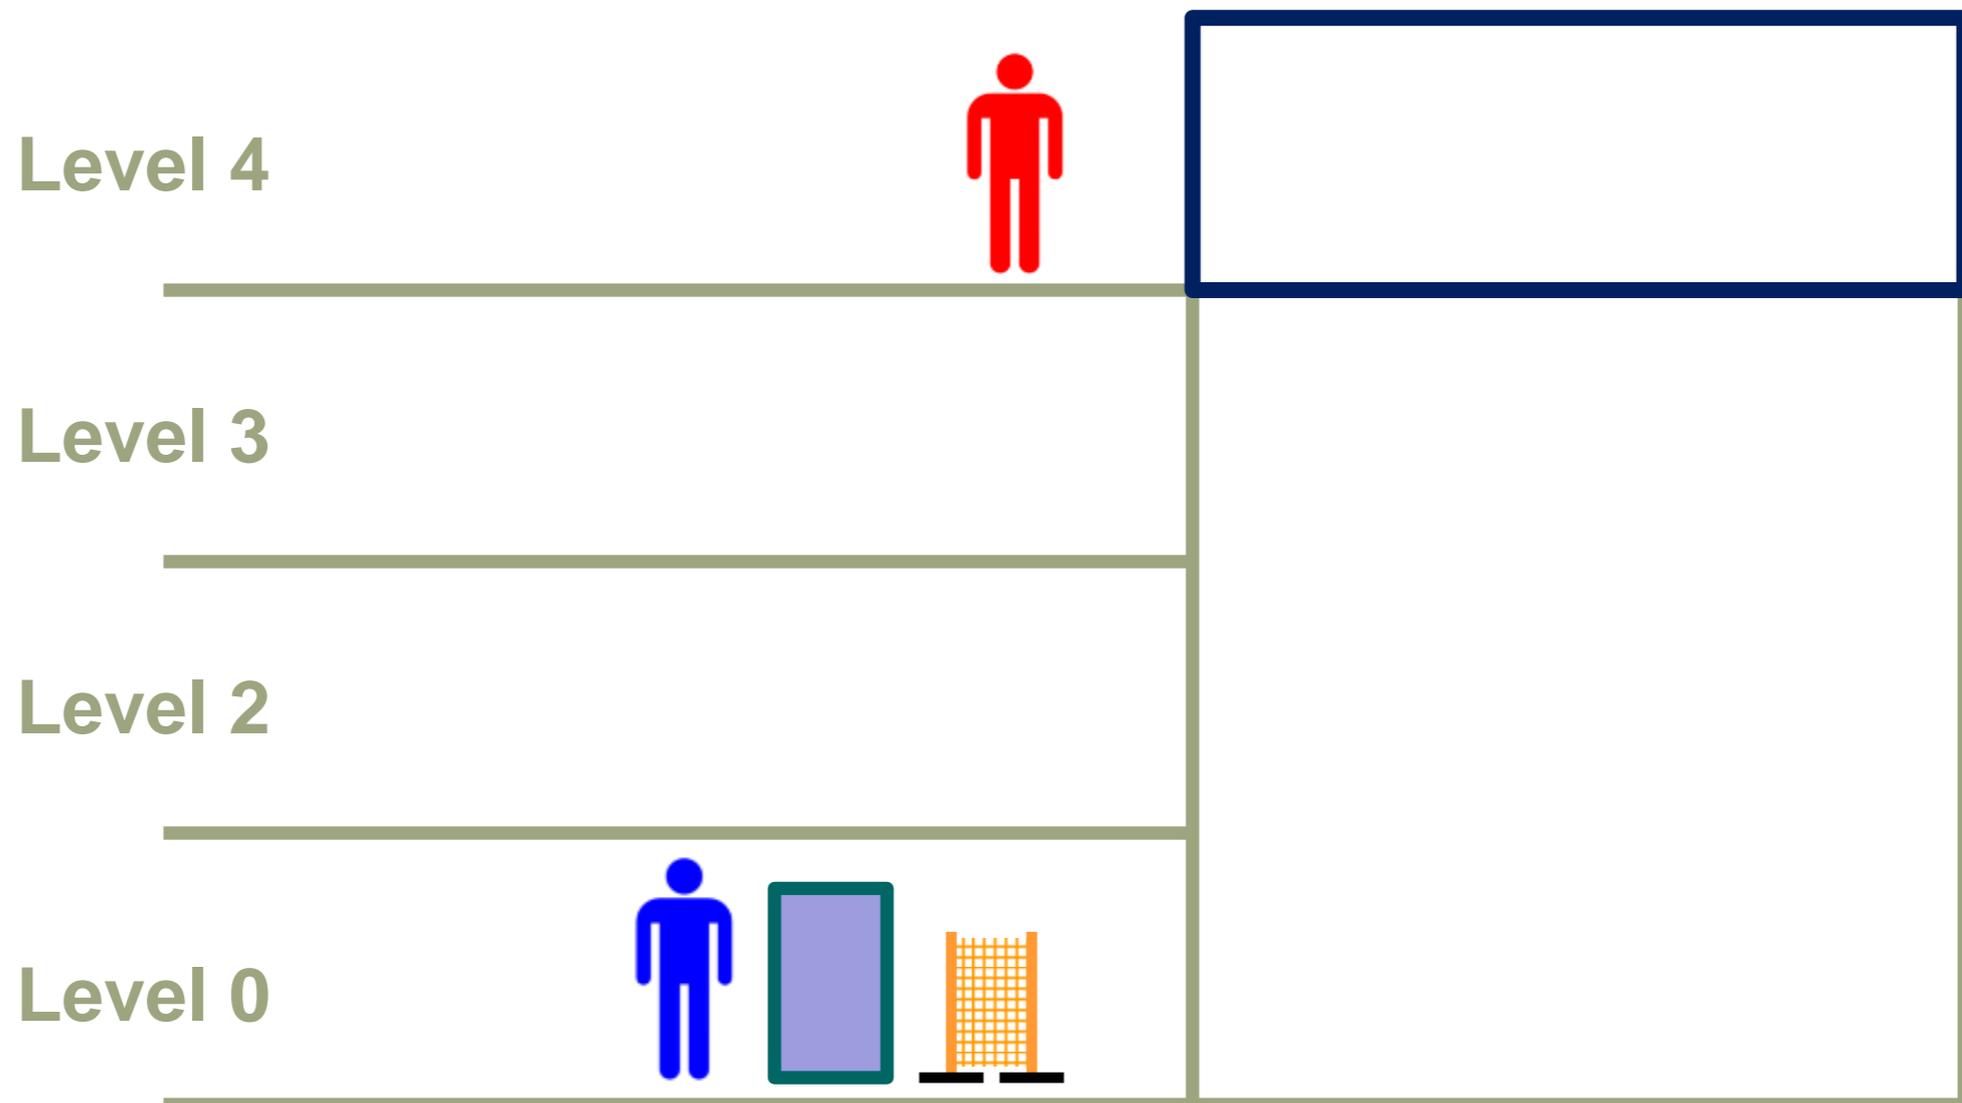

Transport of liquid nitrogen in the elevator

Step 4: One person goes to the level 4

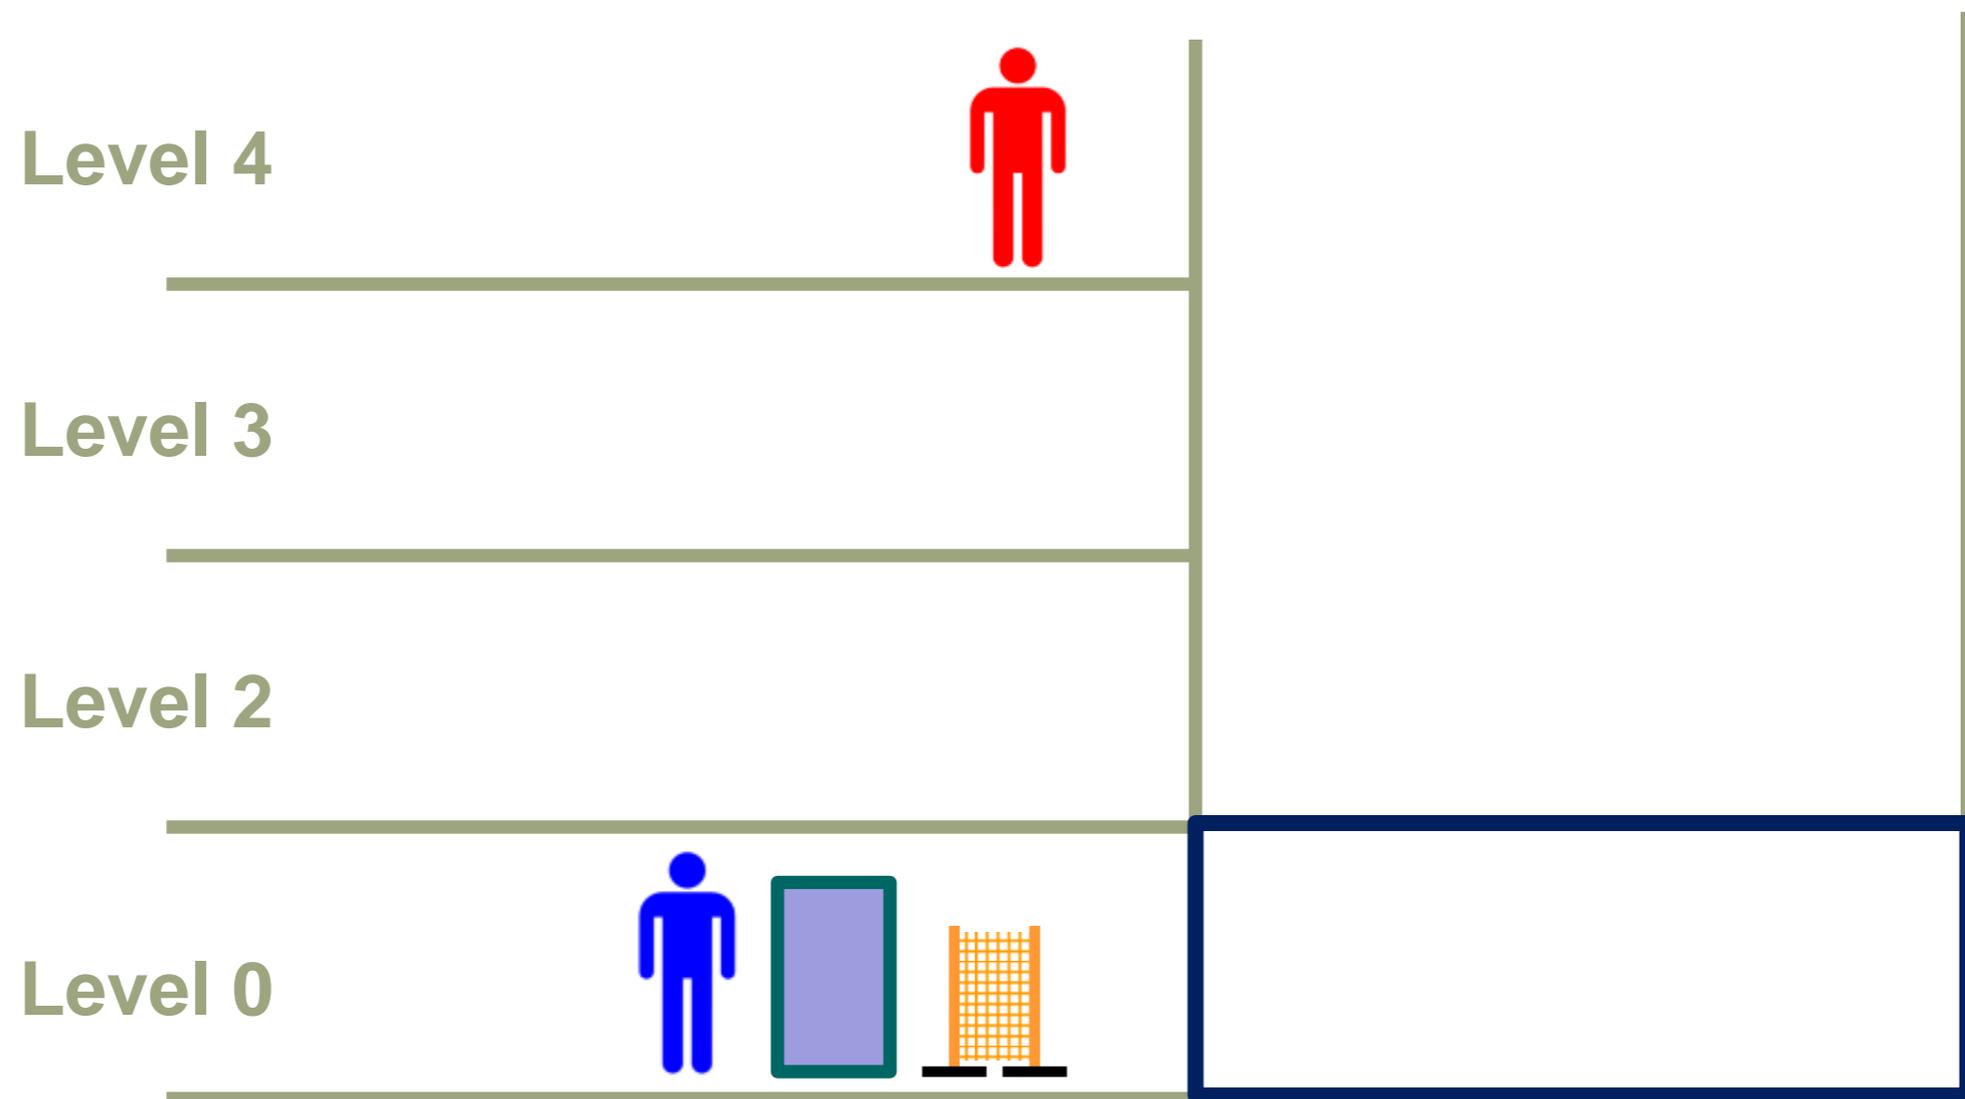

Transport of liquid nitrogen in the elevator

Step 5: Transport of the filled Dewar to level 4

Transport of liquid nitrogen in the elevator

Step 5: Transport of the filled Dewar to level 4

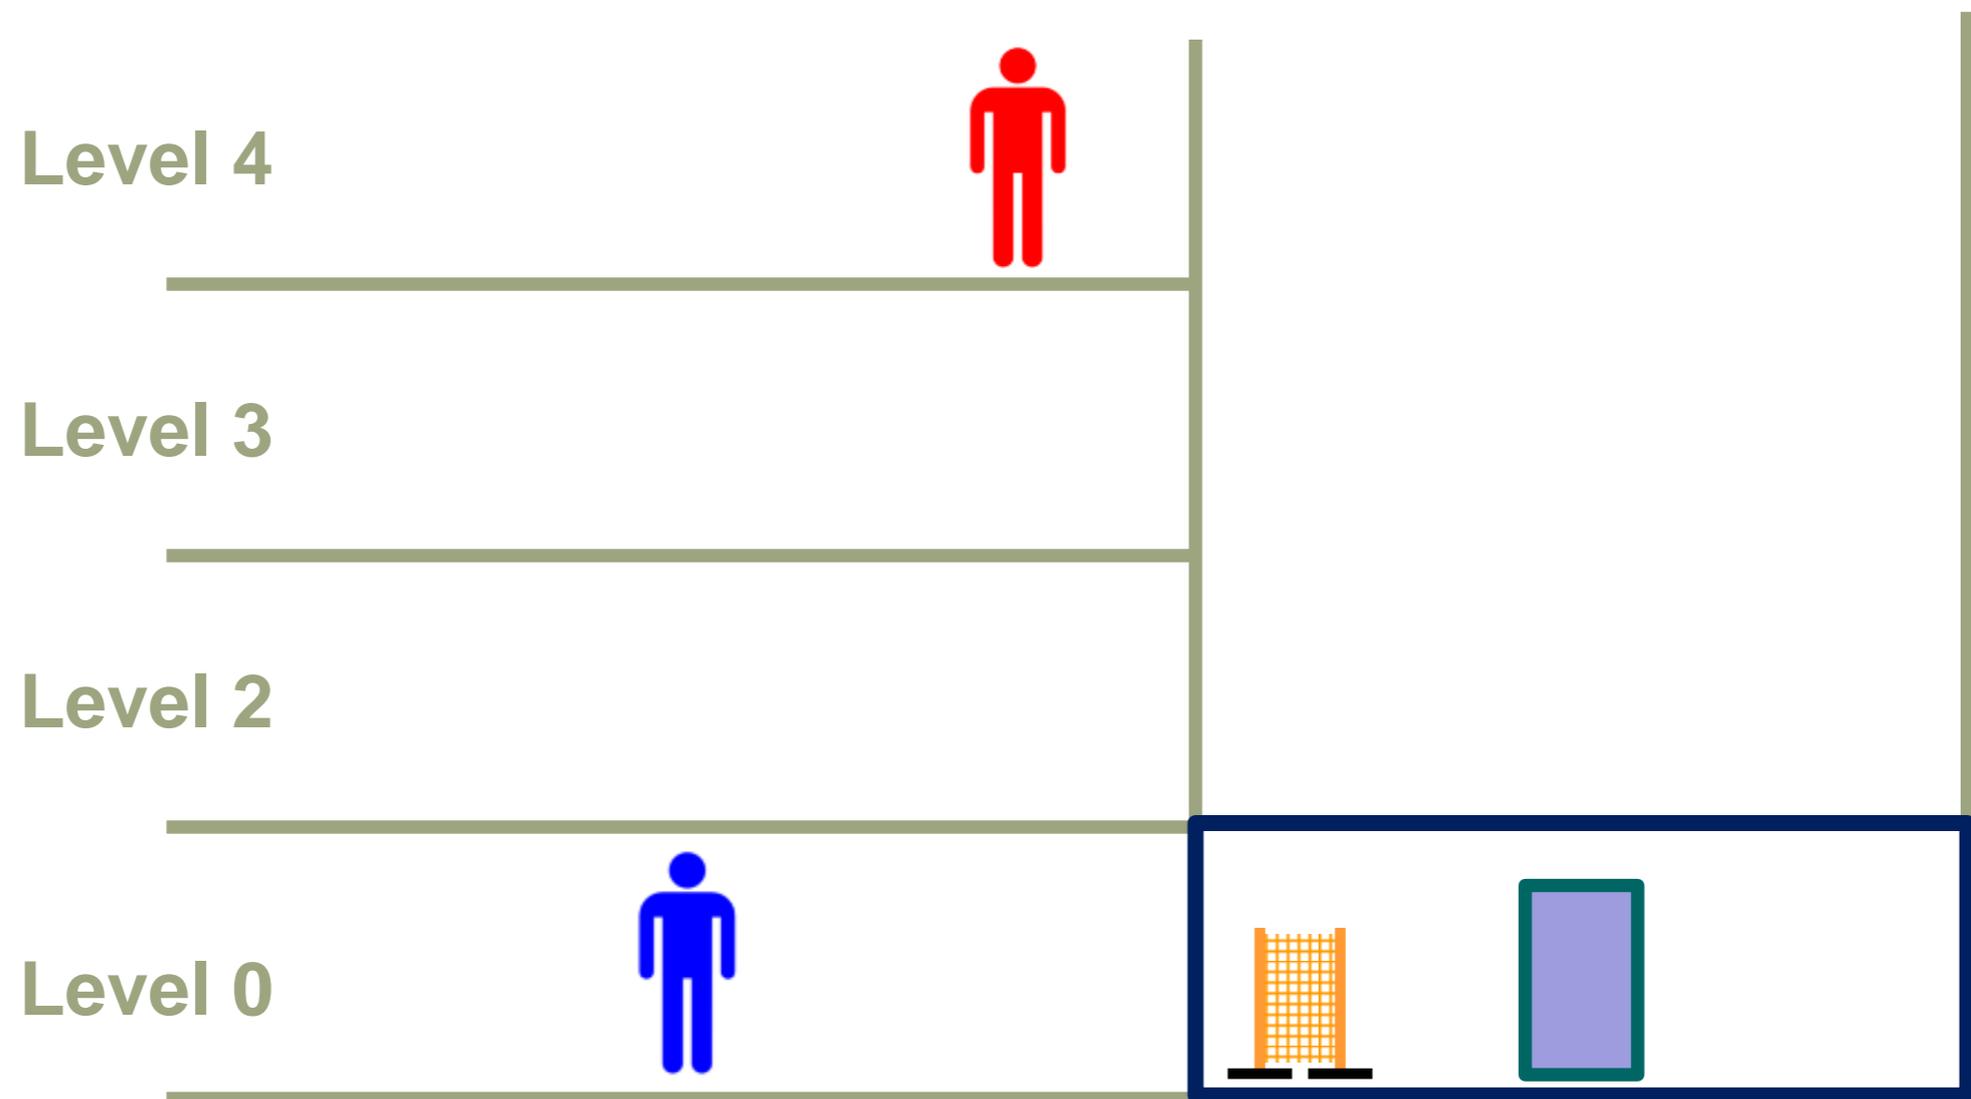

Transport of liquid nitrogen in the elevator

Safety barrier = mesh + bollards (*homemade*)

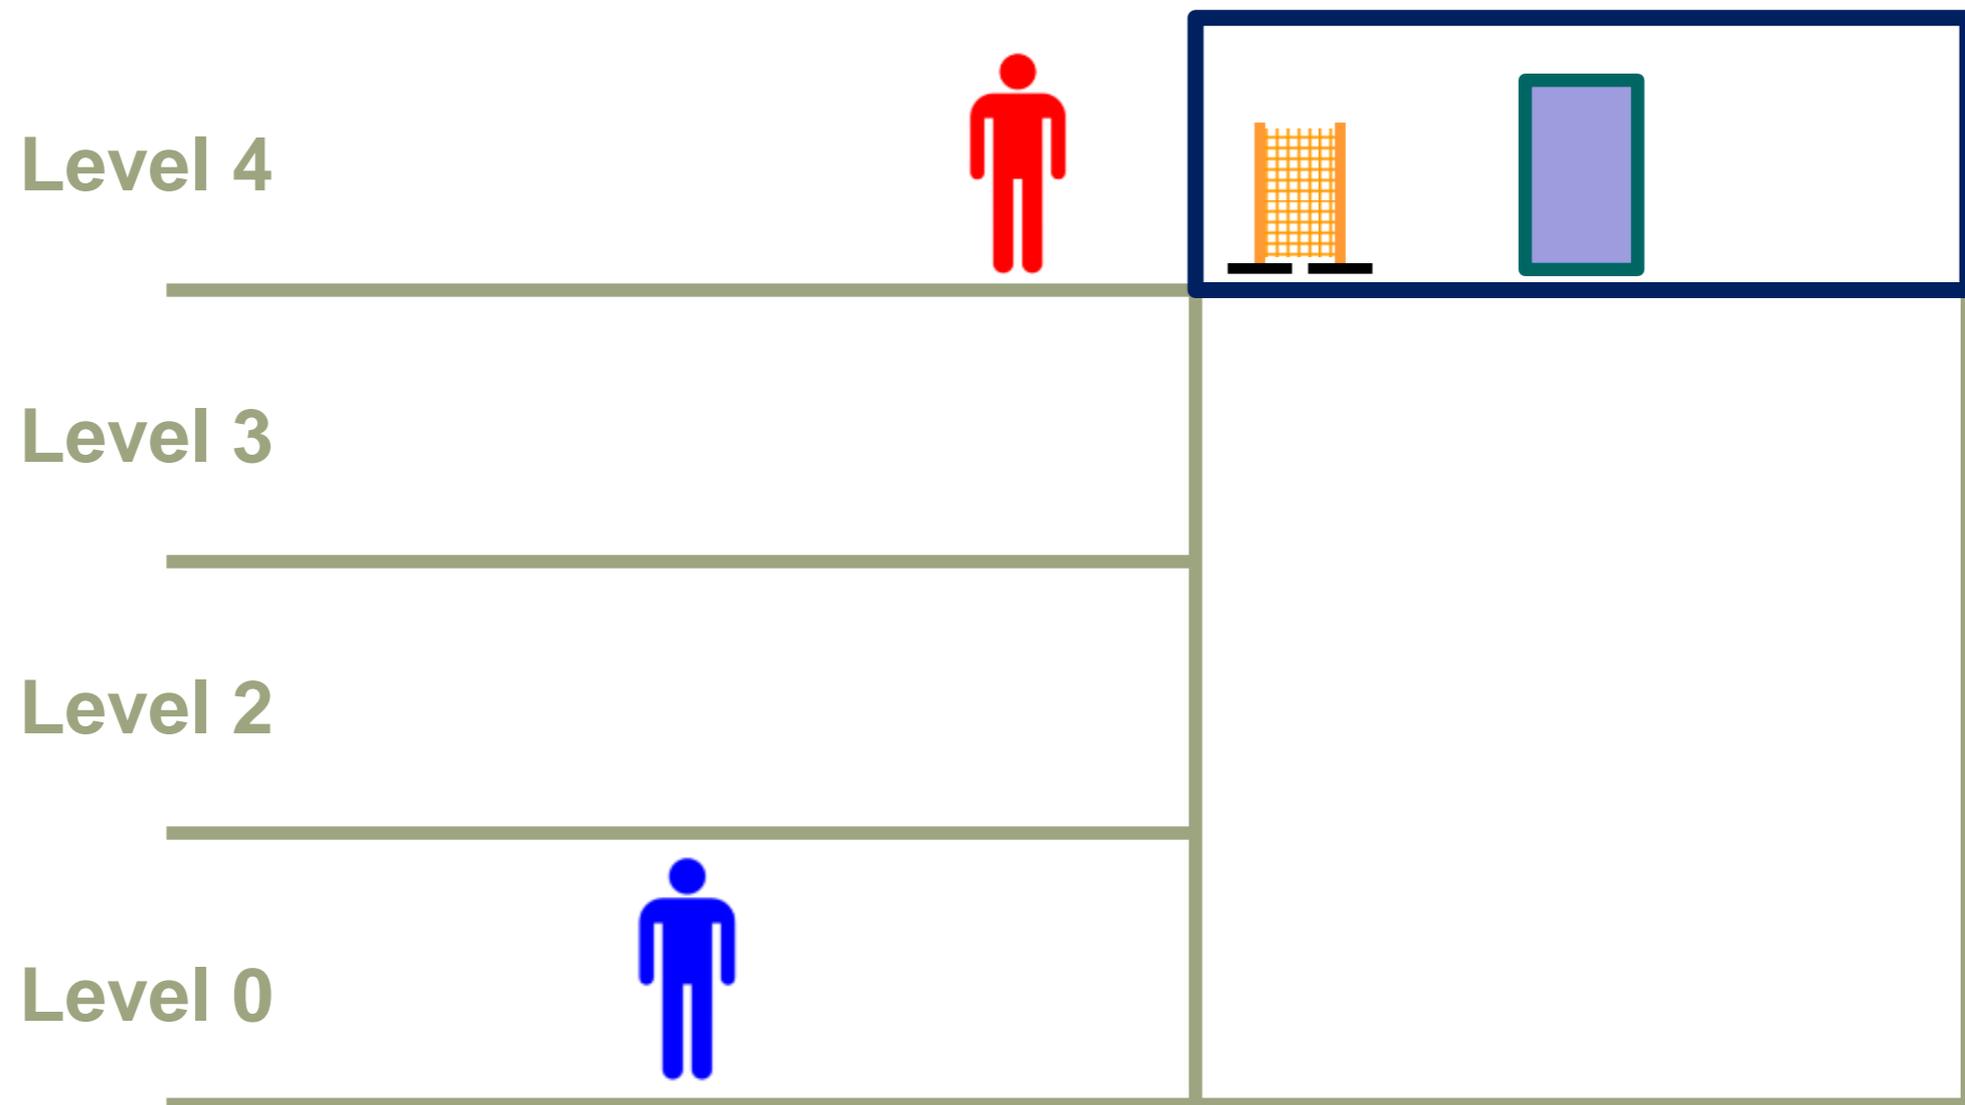

Transport of liquid nitrogen in the elevator

Step 5: Transport of the filled Dewar to level 4

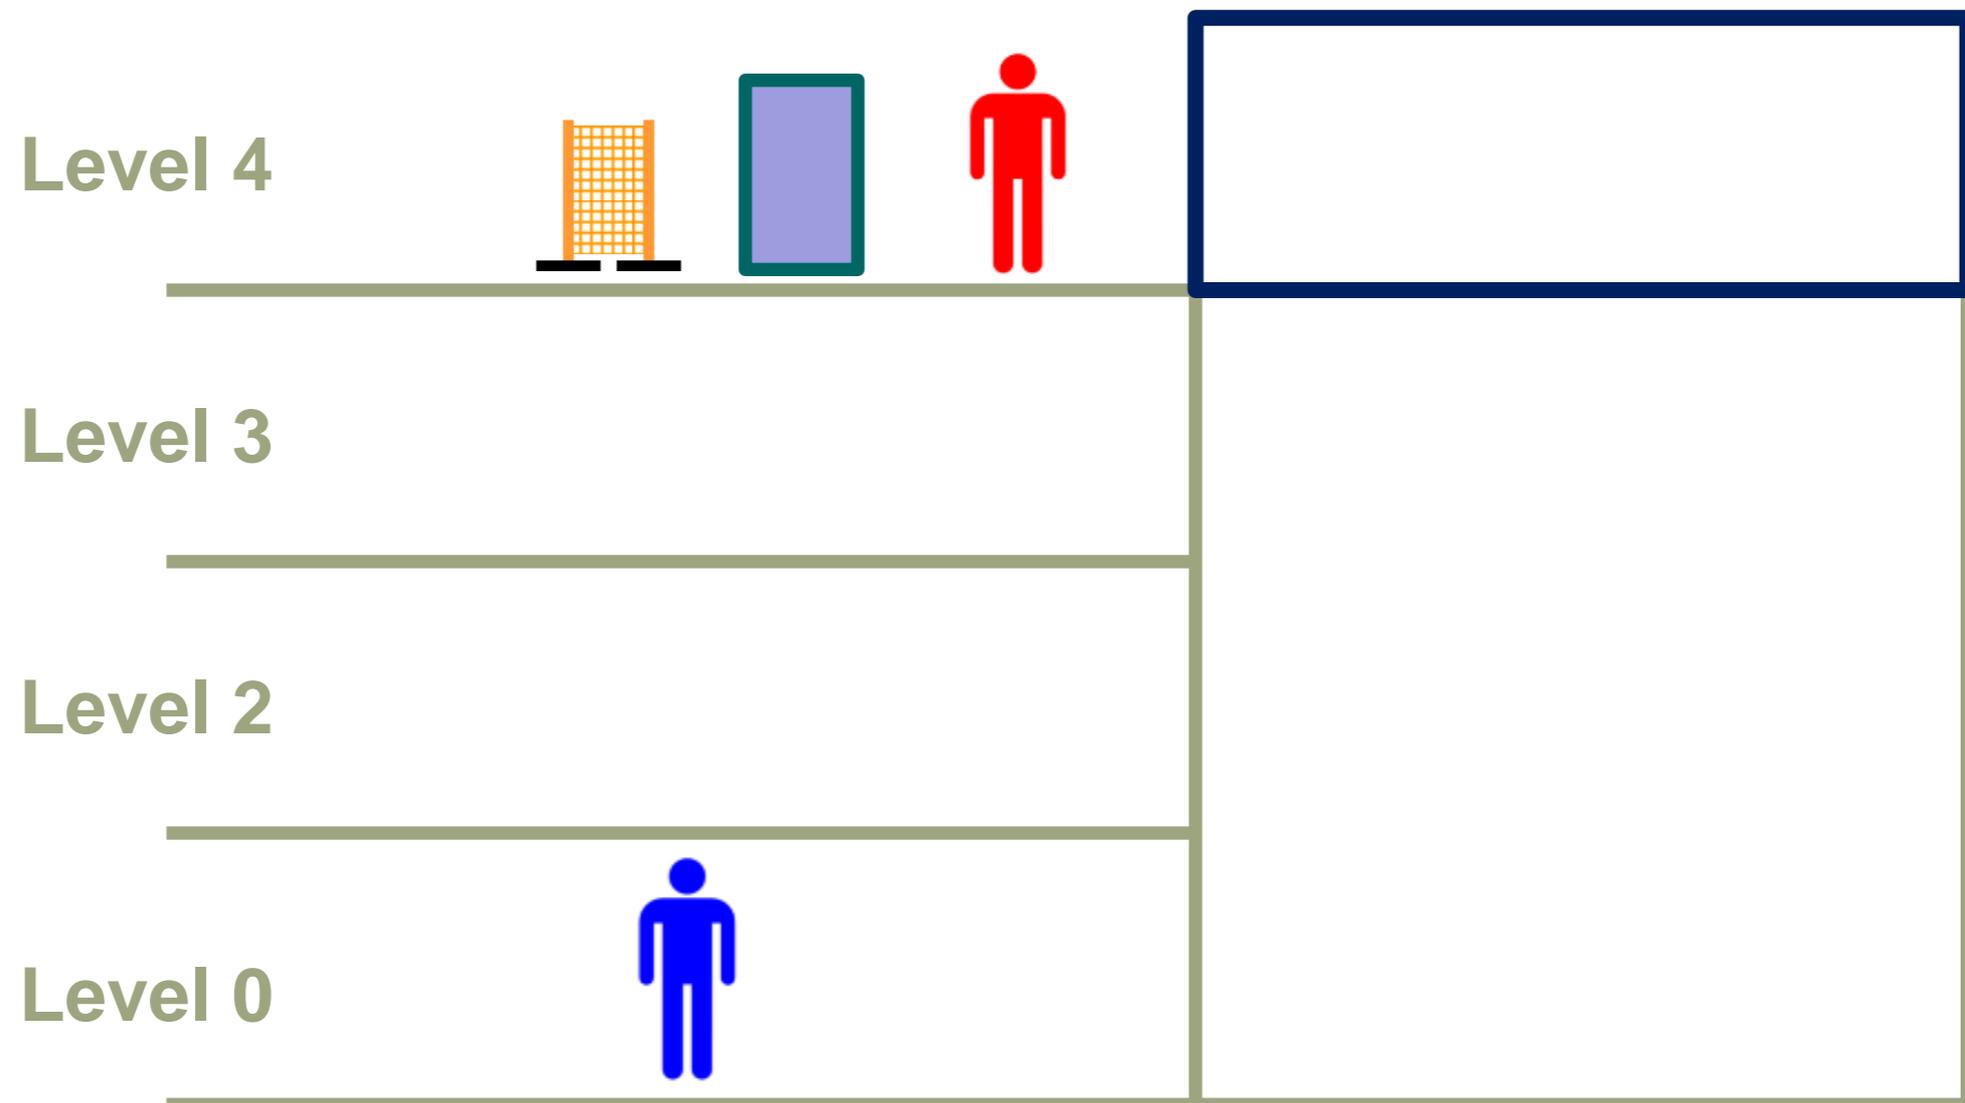

Transport of liquid nitrogen in the elevator

Step 5: Transport of the filled Dewar to level 4

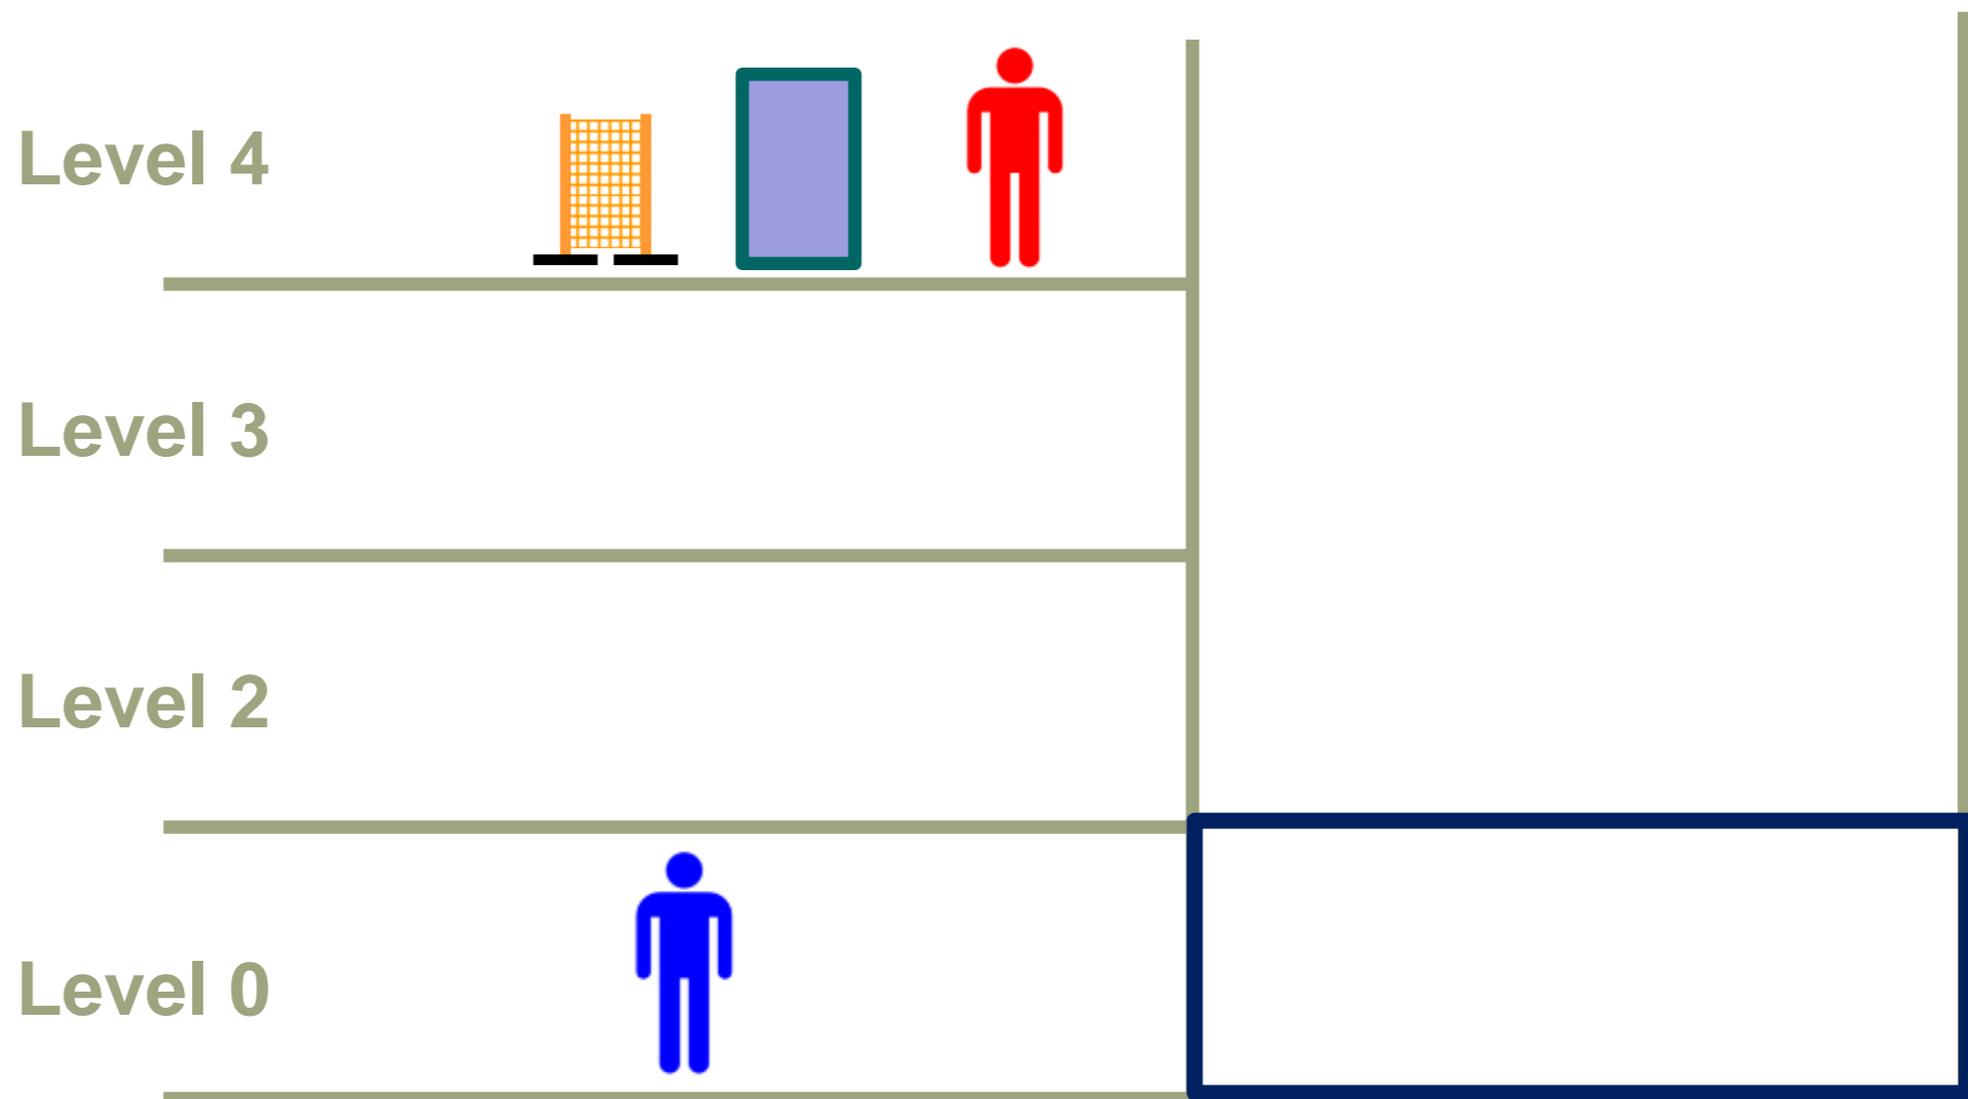

Transport of liquid nitrogen in the elevator

Step 6: The second person go in level 4

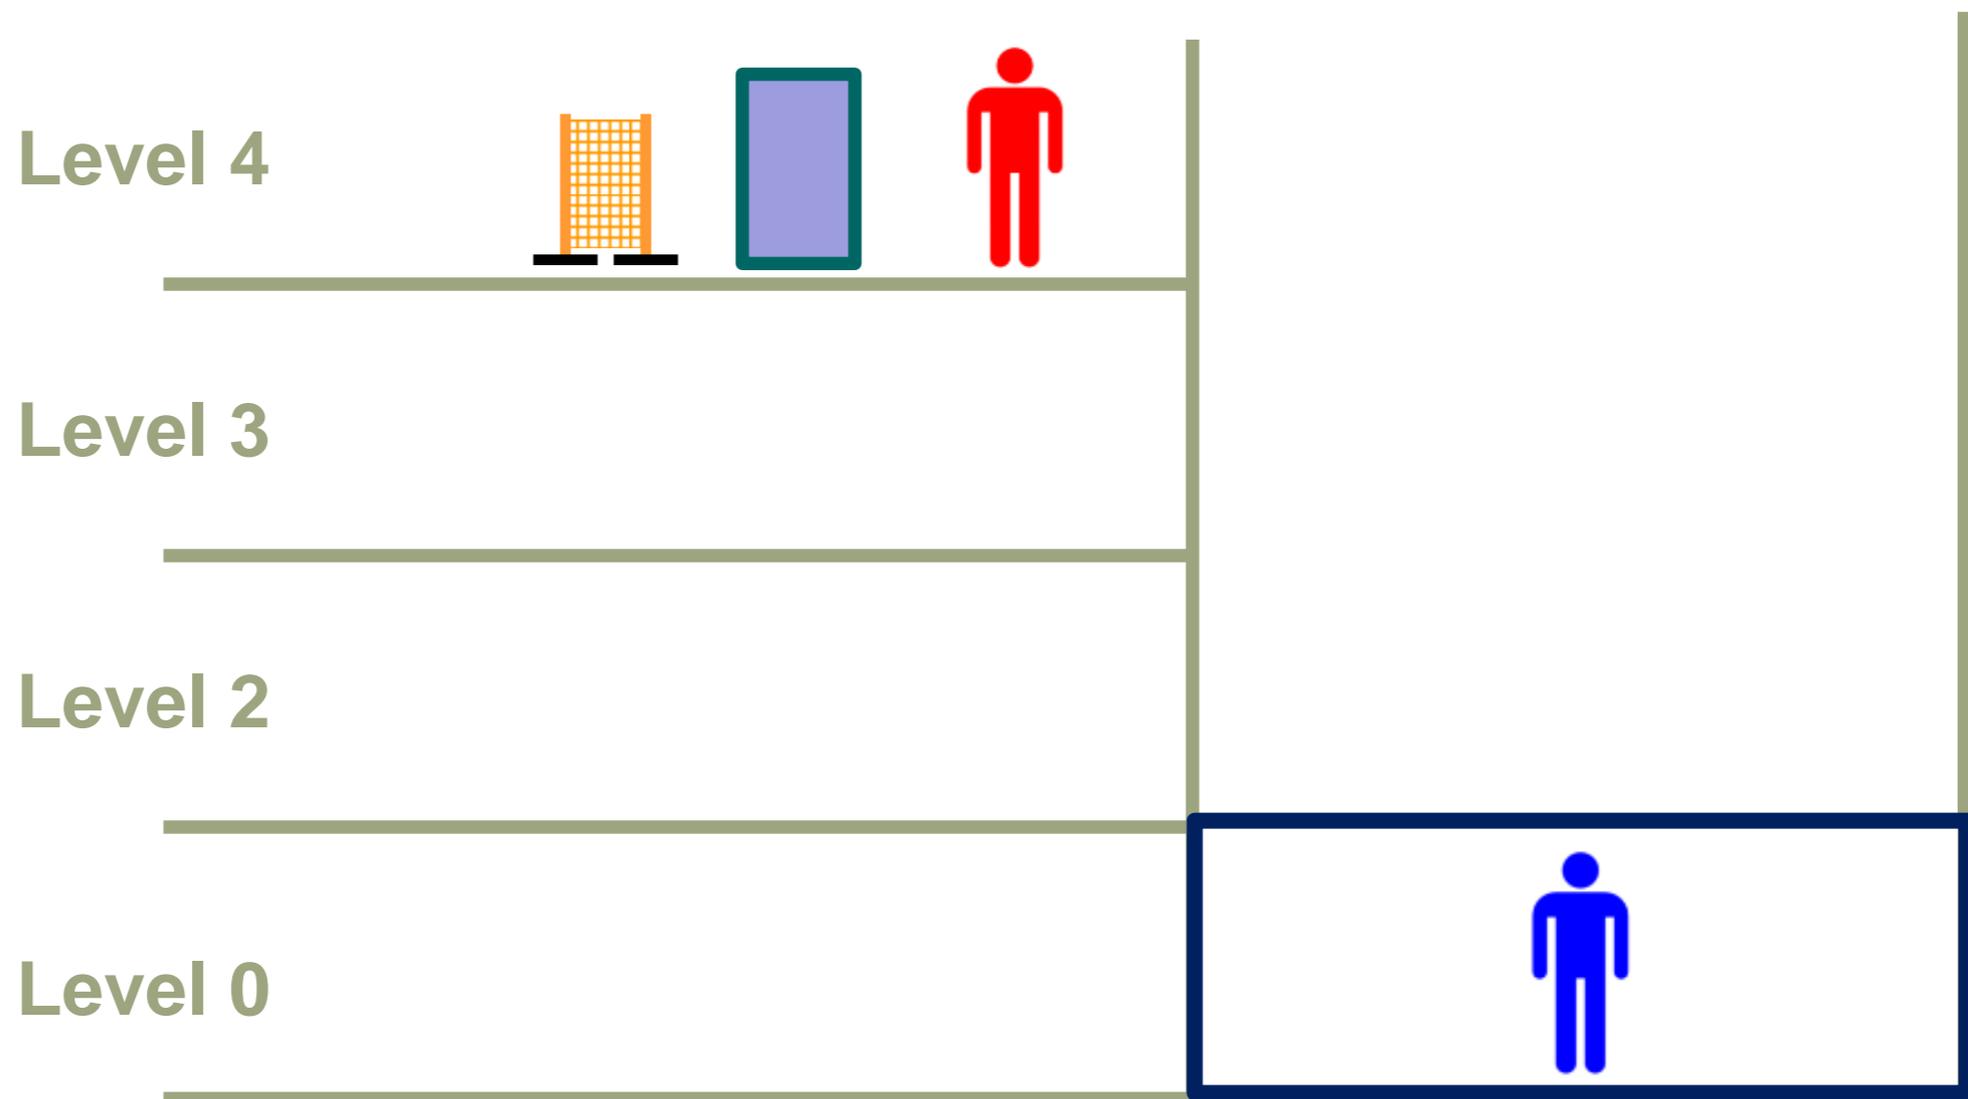

Transport of liquid nitrogen in the elevator

Step 6: The second person go in level 4

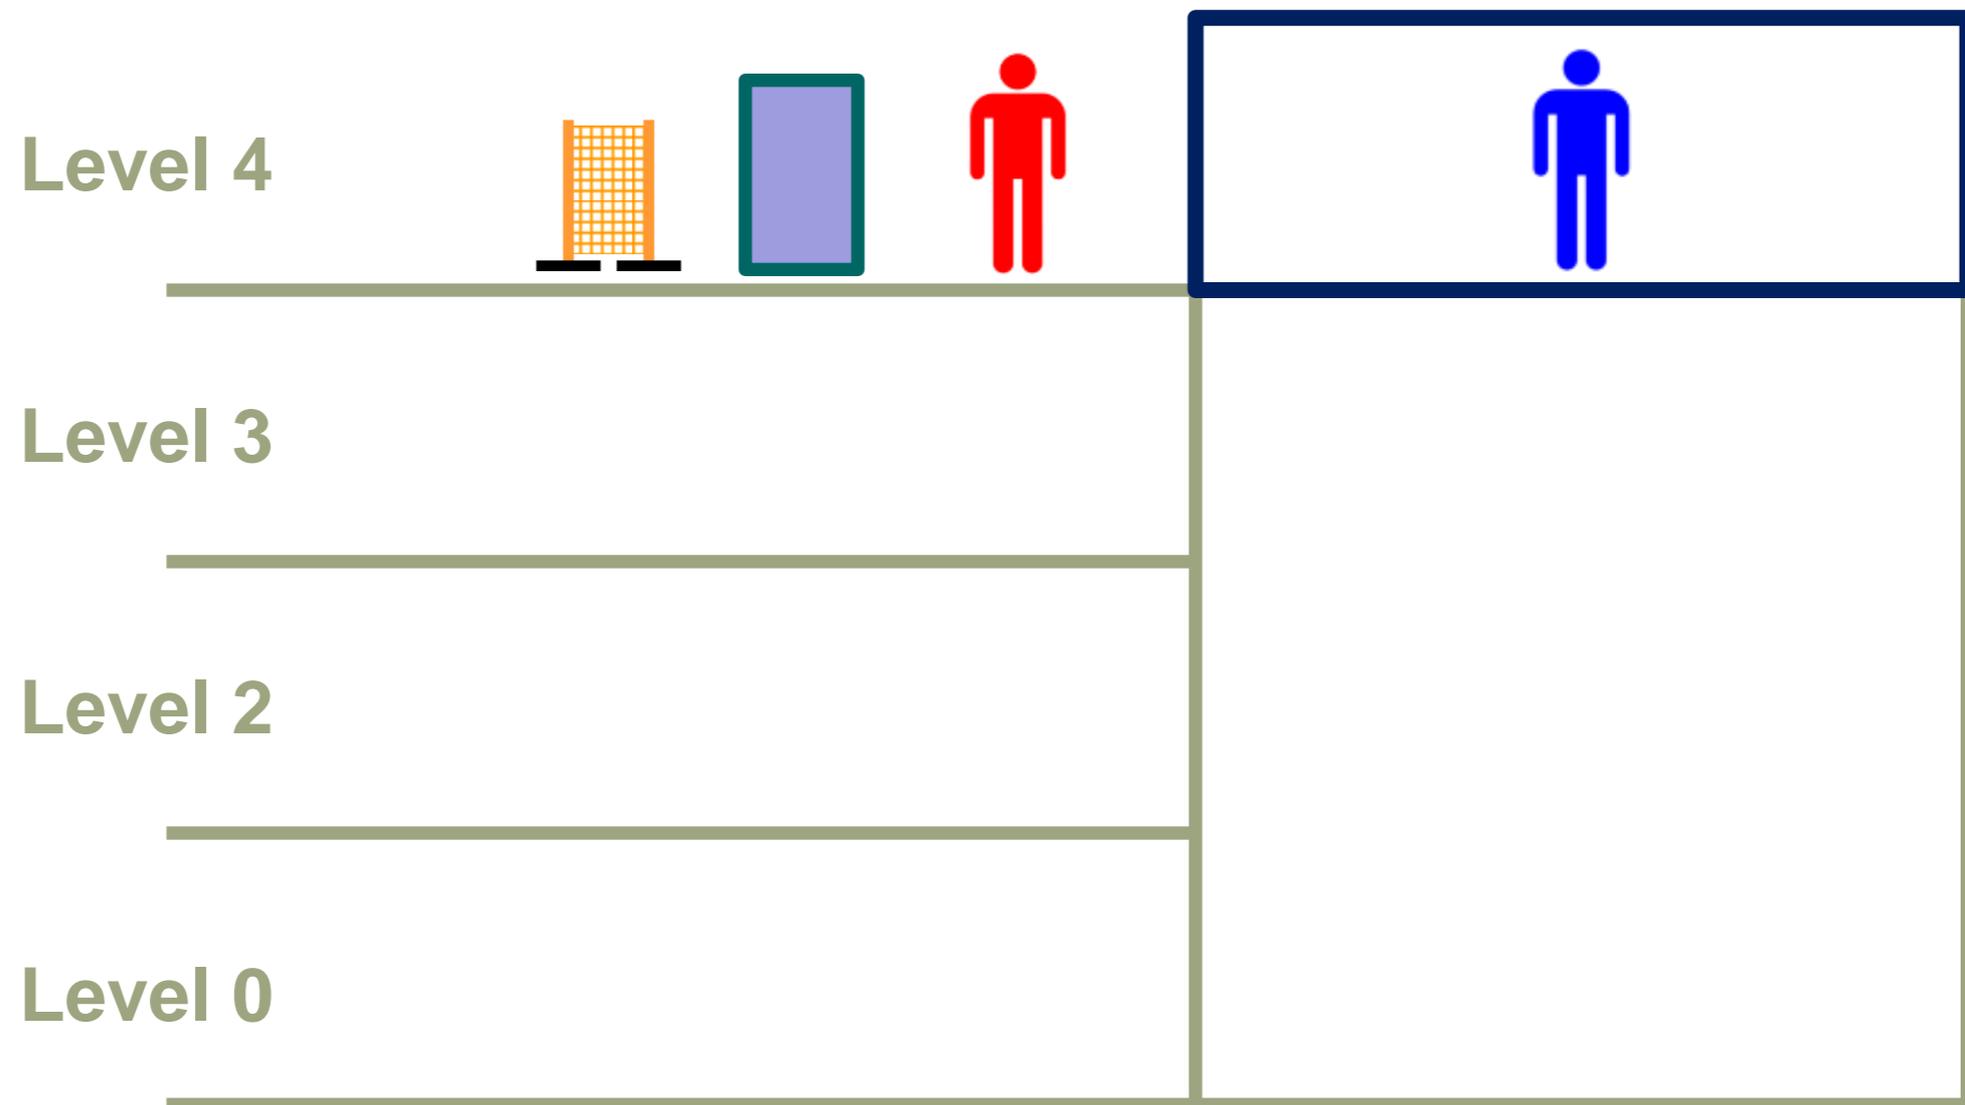

Transport of liquid nitrogen in the elevator

Step 6: The second person go in level 4

Transport of liquid nitrogen in the elevator

Step 6: The second person go in level 4

THANK YOU
VERY MUCH!
شكرا جزيلا
