

# Mobile Devices & Driving

The people at KAUST are one of our most precious resources and by using a mobile phone while driving, you are placing yourself and others in danger.

## Steps to Keeping KAUST Safe – do not use a mobile phone while driving as:

- It is against KSA Law and KAUST Traffic & Vehicle Safety Policy.
- You are much more likely to be involved in an accident.
- You are putting your passengers and pedestrians at risk.
- You may run a red light or STOP sign.
- You may be issued with a violation fine from Security.
- Using mobile phones cause drivers to take their eyes off the road (visual distraction) minds of the road (cognitive distraction) and hands off the wheel (physical distraction).
- Distracted driving can lead to accidents on the road.

**10 min**

*You are only 10 minutes from most places within KAUST  
– the call can wait.*
